"A supper,—all that there is of the best, for say, a party of twenty. Do all you can in fifteen minutes. You can give us those little green oysters and plenty of them. For champagne, G. H. Mumm's, but I'll leave the details to you and my friend, Mr. Jermy." From "The World, the Flesh and the Devil."

EXHIBITION VISITORS DON'T WORRY ABOUT THE NORTH POLE.

You would not, we feel sure, change your present position watching the flight of the Air Ship, the winning ponies and the hundred and one sights of Victoria Fair to be perched a la Cook or Peary on a slippery ice-floe with your tootsie-wootsies overhanging the edge of creation. There is more solid enjoyment witnessing a good horse race than chasing polar bears with a contingent of Eskimos in that cold storage climate. It's not a swappable occupation compared with your present Fair surroundings and still brighter prospect of a cosy, little supper afterwards at your hotel or restaurant accompanied, of course, by G. H. Mumm & Co.'s "Selected Brut or "Extra Dry."

All our discerning visitors know that "Mumm" is the word when they want the best champagne. G. H. Mumm's Champagnes are listed at every hotel, bar, cafe and club in the city.

## HURRICANE'S MANY VICTIMS

List of Dead, in Gulf States May Yet Reach Well Over One Hundred

**MILES OF COUNTRY LEFT IN DESOLATION**

Villages and Parishes on Louisiana Coast Suffer Great Loss

NEW ORLEANS, Sept. 22.—Gradually New Orleans and the territory surrounding the Crescent City are recovering from the effects of the hurricane which started on Sunday continued through Monday and Tuesday night. Fifty-four persons are now known to be victims of the storm, and sixty others are reported to have been lost in Lower Terrebonne, but as yet this report has not been authenticated.

The property loss will run into the millions. Miles of territory have been laid waste and crops have practically been ruined. Dwellings, cotton and sugar mills have been levelled. It was not until tonight that the Western Union was able to get a wire working out of the city. Both the Illinois Central and the Louisville and Nashville railways have suffered heavy loss, miles of their tracks having been swept away. From early today the death list in the lower portions of Terrebonne parish has increased as details were received, until it numbered 28. It is reported that at least forty others have been drowned or crushed in the flying debris. Stores, warehouses, sugar mills and buildings of every character at Houma and other villages suffered heavily, and scarcely a structure was left intact by the hurricane. The damage done at Grand Island, Cheniere and Caminada was very heavy. The crops of these islands were totally destroyed and the orange groves were stripped clean of their fruit and foliage.

NEW ORLEANS, Sept. 23.—Advices were received here early this morning from East Port, Miss., that Mark Hamilton, his wife and five children were killed when their home was blown over and then burned in Monday's hurricane.

## SLOW WORK

Tardiness in Building Government Section Delaying Grand Trunk Pacific Route

MONTREAL, Sept. 22.—Dealing with the progress of the Grand Trunk Pacific railway and the government section as seen by Sir Charles Rivers-Wilson, the Montreal Star says editorially:

"Sir Charles Rivers-Wilson comes back mightily pleased with progress made by the company building their section of the transcontinental from Winnipeg to the west, but mightily displeased with the tardiness of the government contractors of the line from Winnipeg toward the east. If Sir Charles really expected the government contractors to work as quickly and effectually as the men under the eye of a private corporation he must possess a limited amount of knowledge of the ways of government contractors of this continent. Undoubtedly they have much to say about the difficult character of the country through which they are building, though Sir Charles may reply that his line from the head of the lakes to Superior Junction lies very near it. The Dominion government, however, recognizes the necessary haste, as Canada is not building this road for fun.

"The west is growing at a marvelous rate; it has long been a question of whether the spout could carry off what is being dumped into the hopper. The link at Quebec may not be completed as soon as most of us would like; but that is no reason why the prairie section should not be coupled up with the great lakes, or a line to the harbor at Quebec city be put in working order as speedily as possible. This is a case in which the government should strive to convince a cynical world that governments can work as quickly and can serve the public quite as well as private corporations which are looking for private profit."

## Express Tariff

OTTAWA, Sept. 22.—Chairman Macbee, of the railway commission, this morning emphasized the fact that though he allowed the tariff of the Express Traffic Association of Canada to be filed, it would be subject to the forthcoming general inquiry into express rates in Canada. Counsel for the association said the tariff was filed on its own risk, subject to objection or criticism.

## Offensive Advertisement

LONDON, Sept. 22.—Unpleasant comment has been aroused here by the publication here of the following advertisement from the Toronto Mail and Empire of Sept. 8: "Wanted, at once, honest reliable man, able to do all kinds of farm work. No Englishmen need apply. Address Box etc., etc." Meanwhile Dr. Gray, warden of Bradford college, who has returned from Canada, is arranging to take out next Easter the first batch of trained English public school youths to begin the settlement of 1928 acres of ranch land near Calgary, which he has just bought for the public school boy settlement scheme. He contemplates the formation of advisory committees in various Canadian centres, also one year's training in Canadian agricultural colleges, and providing for those proved unsuitable for farming.

## THE RIGHTEOUS INHERIT THE EARTH

Members of the Latter Reign of the Apostolic Church Prepare For Cataclysm.

PROVIDENCE, R.I., Sept. 22.—True to their better that a great upheaval is about to occur, whereby the top crust of the earth will peel off, carrying the wicked to destruction, and leaving the "Elect" in undisputed possession of the world, several Rhode Island families belonging to the sect known as the Latter Reign of the Apostolic Church, have come to Duxbury, Mass., an appointed place, to await for the cataclysm. The time set for the triumph of the Faithful is Friday next at 10 a. m. Leaders of the sect from Rhode Island, Maine and elsewhere are now at Duxbury, and it is said that many of them have disposed of all their world goods and abandoned their various occupations. The prediction that the earth would be rent asunder on September 21 is said to have been made first by Frank N. Doughty, an East Providence member of the Apostolic church of this city, last spring.

## Flag Incident

SYDNEY, N. S., Sept. 22.—A regrettable incident occurred yesterday afternoon in connection with the arrival of the Peary steamer Roosevelt. The U. S. fishing cutter Grampus, which was among the craft that escorted the Roosevelt into the harbor, was observed to have no British flag among her decorations, and when her captain came ashore, he was ordered away by some of the members of the club. Captain Hanson explained that he had no British flag on board and therefore was not able to display one. His explanation was not accepted and the captain of the Grampus felt so badly over the affair that he moved out of port and steamed across to North Sydney.

## FAULT IS FOUND WITH ALIEN LAW

Solicitor O'Donohue Reports to Trades and Labor Congress

Quebec, Sept. 22.—At the Dominion Trades and Labor Congress morning's session there was a heated discussion over the report of Organizer Trotter, in which he declared that during the recent tour in Ontario he had found in some places that partizan politics were injuring organized labor in that province.

A motion was made that the report be referred to a committee of officers, but it was finally decided to have it inserted on the minutes.

Vice-President Simpson reported on moral and social conditions in Canada, especially in reference to sweatshops, child labor and white slave traffic. The report was referred to a special committee.

John G. O'Donohue, parliamentary solicitor, in presenting his report, denounced the alien labor law as a "legislative farce." He said that when it suited the government to deport aliens brought to Canada as strike breakers, the machinery of the bill was made operative, but when it was not in the interest of the government no action whatever was taken. He says that no notice has been taken by the government regarding the resolutions passed at the Halifax convention last year asking amendments to the Lemieux trades disputes act. Amendments have been proposed, but they have been left on the order paper.

A special committee was appointed to study immigration and present a report before the congress rises.

A resolution was presented asking the congress to form a peace committee to work against the armament of nations with the idea of establishing universal peace.

## BOMB FOR PRESIDENTS

Explosive Found Near Platform Where Taft and Diaz Are to Meet in Juarez

E LPASO, TEX., Sept. 22.—A bomb was found tonight in the rear of the customs house at Juarez, Mex., a few feet from the platform which has been erected for the meeting between President Taft and President Diaz on October 16th. More than thirty arrests were made.

Juarez is across the Mexican border.

## Rockefeller's University Gifts

CHICAGO, Sept. 22.—John D. Rockefeller has contributed \$24,000,000 to the University of Chicago since its foundation, according to a statement made in the annual register of the University issued yesterday by the University of Chicago press. Mr. Rockefeller's original subscription of \$600,000 came in May, 1889, and he has been constantly increasing that sum and adding to the endowment fund.

## Cattle Question

LONDON, Sept. 22.—Argentine has intimated that the herds of cattle in that country are free from foot and mouth disease, and communications are now proceeding with the Argentine government in regard to the admission of Argentine cattle into this country. At a meeting today of the Central Associated Chambers of Agriculture, it was stated that members of the cattle disease committee noted with extreme satisfaction the emphatic refusal made by Premier Asquith to a deputation which waited upon him a few days ago asking for the removal of the Canadian embargo.

## SUPREMACY OF BRITISH NAVY

Sir William White Speaks of Necessity for Its Maintenance

## REQUIRES SUPPORT OF WHOLE EMPIRE

Finds Unanimous Sentiment in its Favor Throughout Canada

MONTREAL, Sept. 22.—Sir William White had a great reception when speaking before the Canadian Club of Montreal this afternoon upon the necessity of maintaining the supremacy of the British navy. He pointed out how extremely refreshing and gratifying it was to find from one end of the Dominion to the other on the prairies as well as in the maritime provinces, an unanimous sentiment in favor of contributing to the imperial navy.

He declared that the enormous increase in naval expenditures was entirely due to German activity. While Germany had a perfect right to build as big a navy as she likes, that navy was not necessary to her existence as the British navy was necessary to the existence of the British empire. Therefore it was the duty of every British citizen to do his share towards seeing that the British navy should always go one better and always be supreme.

He said that the British navy was equal to the British navy see that not only the islands of Great Britain, but the whole empire, was behind the British navy, and they would pause and think it over.

## French Aviator Killed

BOULOGNE, Sept. 22.—Captain Ferber, an officer of the French army, was killed near here this morning while testing an aeroplane. While in the air the machine turned over and then dashed to the ground. Captain Ferber was crushed to death by the motor. Captain Louis Ferdinand Ferber had been detailed for several years past to devote himself exclusively to aeronautics in the interest of the French army, and he labored particularly with the idea of developing first balloons and then heavier-than-air machines for military purposes. His interest turned quickly to the heavier-than-air machines, and he was a pioneer in this field. He was one of the first men in Europe to become interested in the work and progress of the Wright brothers, and called the attention of the French government to the success obtained by these American aviators. Captain Ferber took part in the recent aviation contests at Rheims, where he flew in the race for the international cup and also gave an exhibition flight.

## HORSESHOW IS BIG ATTRACTION

Large Attendance Present at Opening of Great Social Event

The horshow held in connection with the provincial exhibition was opened last night before a large attendance. No fewer than twelve events were decided, and in some of them there were large entry lists. The affair proved easily the greatest attraction held in connection with the exhibition, and many prominent citizens were in attendance. The display of horshow was of a high class character, and the competition was keen.

The horshow building was draped in flags for the occasion and the general arrangements were of an excellent character, with the exception of the lighting which showed signs of failure at times, and the fact that the spectators were not notified of the winning horses in each event. The only indication of an event having been adjudged was the pinning of the ribbons on to the winning horse, and at times the light was so indifferent that it was impossible to make out the names of the successful competitors. The bad light also militated against the horses in the jumping events, many of them taking off short, while others jumped too soon. The introduction of an announcer into the proceedings who could call out the different winners, as the ribbons are pinned on, would enable spectators to follow the events with greater ease.

## Affair Great Success.

The inauguration of the annual horshow, however, was on the whole a great success, and the number of foreign entries is an indication of the interest which it has aroused. The Vancouver entries won the majority of the events, carrying everything before them in the jumping competitions.

A number of fine harness horses were seen out in the first event, and the class exhibited by the winner, Warwick Dora, was greatly admired by the spectators. The winner is a three-year-old chestnut mare, with superb action. The owner of the winner, D. C. McGregor of Vancouver, also gained the third prize in this event with Glowing Rose, a four-year-old chestnut mare with a long stride.

(Continued on Page 8.)

## SAILORS SUFFER

Men From Canadian Cutter Earl Grey in Bad Plight Off Coast of Newfoundland

ST. JOHN'S, N. F., Sept. 22.—A tale of suffering and danger was related today by the crew of a boat which left the new Canadian cutter Earl Grey to attempt to obtain coal and provisions on the bleak Newfoundland coast, when the vessel's supply was nearly exhausted. A number of the crew manned a boat and rowed fifty miles to Bay de Verde, where they obtained two and a half tons of coal in sacks and some provisions, and after telegraphing to St. John's a report of their vessel's plight they started to return.

Meanwhile a severe storm had arisen and the seas became so high that the boat was nearly swamped. Finally it became necessary for the men to jettison the coal to escape foundering. The masts and sails of the boat next went by the board. The men were adrift all night, and at daylight were picked up by a passing schooner. In boarding the schooner one of the men was badly crushed, while another had his arm broken. The men were landed at Carbonear, whence they are conveyed here.

Tugs were sent out from this city and brought the disabled steamer here on Saturday night.

## Honeymoon Ends With Death

ALBANY, N.Y., Sept. 22.—En route from Farmington, Conn., to Belknap, N. H., Mr. and Mrs. V. H. Petchar were found dead today in a room of a boarding house having been asphyxiated after a four days' honeymoon. The police expressed the belief that through thoughtlessness or ignorance the husband had blown out the gas. The couple arrived last night and intended to go to Belknap where Petchar had secured employment as a painter.

## SUFFRAGETTES AT HARD LABOR

Sentences for Birmingham Rowdism—Crazy Women in Court

LONDON, Sept. 22.—Ordinary imprisonments having failed to check rioting on the part of the suffragettes, a magistrate at Birmingham this afternoon sentenced Mary Leigh and Charlotte Marsh, two of the ringleaders in the outbreak at the meeting in Birmingham on the night of September 17 when Premier Asquith delivered an address upon the budget, two and three months respectively at hard labor.

Another woman was given one month at hard labor and others various terms of simple imprisonment.

When the sentences were announced, a number of suffragettes in court uttered whatever they could lay their hands on in the form of missiles, and broke the windows of the court room.

## Pacific Grain Route

VANCOUVER, Sept. 22.—Sir Thomas Shaughnessy told the board of trade today that he would have an important announcement to make before he left Vancouver on the grain question.

## To Enlarge Big Hotel.

WINNIPEG, Sept. 22.—The Royal Alexandra Hotel will be made a ten-story building in 1910, according to plans which are now said to be under consideration by the Canadian Pacific. The present building, completed two years ago, has proven already too small to accommodate the traffic, the structure being crowded for about nine months in the year. Two added stories will give an extra one hundred and thirty rooms.

## Wheat at Montreal.

MONTREAL, Sept. 22.—The first cargoes of Canadian Western wheat have reached Montreal during the past twenty-four hours, and over 100,000 bushels are now on the way to the sea, having been handled in record time. The first lake steamer to arrive with a cargo of this year's crop was the Canadian from Fort William, which brought 60,000 bushels, and several other large cargoes followed. The rush of wheat to the sea is now on in earnest, and thousands of bushels will pour into Montreal daily now until the close of navigation. To take care of the wheat there are now sixteen ocean steamers in port, more than at any time this season, and several large tramps are on the way.

## Alberta Grows Corn

CALGARY, Sept. 22.—This year's field corn fully matured in open fields near Bassano, in Bow river valley, has created intense interest in grain and live stock circles. Cobs 10 inches in length have been picked from Bassano to Calgary, the kernels being fully ripe and of large size. Grain men are optimistic regarding the possibilities of this crop, and believe that the eastern section of the Bow valley district is about to add corn to its already varied list of possible and profitable crops. Bassano is the district that this year has provided Alberta with the heaviest winter wheat, and those competent to judge state that musk and water melons grown there have the same exceptionally fine flavor found in the best southern melons. An abundance of southern melons accelerating rapid growth will ultimately make that the banner district of the province.

## CITIZENS' DAY AT FAIR TODAY

Excellent Programme of Events Has Been Arranged for Holiday

## LARGE CROWD VISITS GROUNDS YESTERDAY

American Day Events Are Well Patronized—Horse Show Is Opened

## CITIZENS' DAY EVENTS

- 11 a.m.—Annual meeting of the British Columbia Agricultural association in the Restaurant building on the grounds.
- Lecture by M. A. Jull, B.S.A., on "Poultry," in Women's building.
- 12 a.m.—Stockmen's annual luncheon on the grounds.
- 1 p.m.—Parade of live stock prize winners.
- 2:30 p.m.—Horse races and continuance of horse show programme, including jumping competitions.
- 2:30 p.m.—Airship will make ascension, probably circling over the city in its trip on this occasion.
- 2:30 p.m.—Programme arranged by the Ladies' Musical club in Women's building.
- 7 p.m.—Fireworks display.
- 8 p.m.—Continuance of horse show events.
- 8 p.m.—Programme of music supplied by M. W. Waitt & Co., in Women's building.

Fine weather, large crowds and a programme which thoroughly pleased were elements which went to make the day a success. The fair everything that could be desired. It was the most successful day so far this week and during the entire afternoon the various buildings were thronged by visitors who took keen delight in viewing the many excellent exhibits while the whole spirit presented the night of September 17 when Premier Asquith delivered an address upon the budget, two and three months respectively at hard labor.

Another woman was given one month at hard labor and others various terms of simple imprisonment.

When the sentences were announced, a number of suffragettes in court uttered whatever they could lay their hands on in the form of missiles, and broke the windows of the court room.

## Races Were Close

The races were good, were run off with greater dispatch than on preceding day and to the grand stand filled almost to its capacity. It was a day which, while there might have been a paucity of entries in some of the events, provided the spectators with an afternoon of good sport. The starts were good and the finishes close. A feature of the racing events was the increased prominence on the part of the judges in starting the races, which did not, as yesterday, require seventeen starts before the contestants got away.

The exhibits in the main building, the Woman's building as well as those in Machinery hall, the Poultry pavilion and other departments came in for a lot of attention. The exhibits are quite the equal of those shown in previous years and in many cases much better and as a demonstration of the productiveness of the province and a testimony to the technical skill of the manufacturers furnished the visitors with an object lesson.

## Judging Continued

The judging of the various classes was continued during the morning and afternoon. In all classes the competition was keen and the arbiters of the ring were kept busy deciding on the entries entitled to the ribbons. Quality is the keynote of this year's entries and in practically every class there was required time before the final award could be given.

In the main building the display is remarkably good. Exceptional care has been taken to make the various exhibits comprehensive and while the space at the disposal of the exhibitors is somewhat limited the showing made is extremely good. The building was thronged all day long by interested visitors who were loud in their expressions of appreciation. The fruit display was also one which, besides being one of the most important at the fair, seems also to attract the major part of attention. The display is a most tempting one and carefully arranged. In the poultry section, where the pulling of engines and whirly where the pulley serves to give it a busy aspect the latest machines of their kind can be found. The noise of machinery found a close rival in the sounds from the poultry building adjoining where the aristocracy of the feathered tribe were on view.

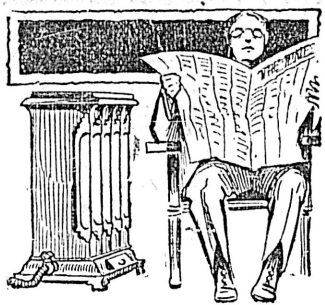

## Side Shows Attract

The side shows also did a better business yesterday. The Oriental-looking woman with a Swede accent, forecasted the future with a sang froid which only matched the readiness with which the energetic "spieler" gathered in the shekles of the seekers after knowledge. The African class was also a drawing card while the other attractions were well patronized.

For the first time the air ship was placed in commission when last even-

## HORSE OWNERS WISH TO RETURN

Vancouver Methods Not to Their Liking—Want Extension of Present Meet

There is a possibility that followers of the ponies will have another opportunity of enjoying the sport in this city following the present race meet at the Agricultural fair. It is rumored that the Country club has under consideration the advisability of undertaking another meet here. For just how long the meet would continue is a question which, it is said, has not been determined, but that a second race meeting here this year would be a drawing card and be welcomed, those interested in the sport are positive.

It is declared that the recent meet held here by the Country club, when for sixty days, when sport was afforded without a hitch and without any of the bad features which have characterized the racing fiasco in Vancouver, would be welcomed not only by local horsemen but also by practically all the owners who at present are racing the strings at the Terminal City. It is no secret that the horsemen now in Vancouver have become disgusted with the manner in which the races on the Lulu Island track have been conducted.

### Are Dissatisfied

Horsemen who are now in the city attending the fair make no secret of their desire to return to Victoria, where, they claim, they were given fair play, the races were run on the very best lines and the whole meet was entirely free from the constant bickerings and unpleasantness which has characterized that at Vancouver. Here, the Country club was not a species of machine for the extraction of every cent in sight while at Vancouver the people in charge of the meet appear to have only one aim in view, to make as much as quickly as they can irrespective of the welfare of racing in the province. There, the game, as a sport, is a thing of the past, but as a means of squeezing out the shekels from horseowner and the public it has achieved a decided success. In fact those who claim they know go further and hint that crookedness and devious ways which they assert were totally absent in the recent Victoria meet.

When the Vancouver club opened at Lulu Island it was understood that its meet would be called off in time to allow of horses being brought to Victoria for the fair races. But as a matter of fact just before the fair here opened it was decided by the Vancouver club to continue the meet there another month and when some of the horseowners stated that they had arranged to come to Victoria they were told they might do so but that they need not expect to be allowed to return to Vancouver. As a result, of the eighty-five horses which were expected to come here only seventeen arrived to take part in the opening races of the fair, and yesterday another fifteen came over. This accounts for the few entries in the races here.

### Would Gladly Return

The local club lent its paraphernalia to the Vancouver club and only the last of it was returned yesterday. Though the Agricultural association had expressed an opinion that it would be here in time for the fair, just what the intention of the club may be is not certain but it is stated that the majority of the horseowners now at Vancouver expressed their intention should the races here be extended another ten days, to return here and throw up their engagements at Vancouver.

A meeting of the Country club will be held this morning, when the suggestion will be presented to it and its assent to the representations of the horsemen given.

## CITIZENS' DAY AT FAIR TODAY

(Continued from Page 1.)

ing at 10 o'clock the first flight of the week was made by J. C. Mars, the daring aviator who arrived in the city on Tuesday to undertake this part of the week's programme. The ascent was scheduled for 9 o'clock, but owing to the difficulty with the lights the performance was postponed for an hour. When it did come off, however, it proved a decided success. Mr. Mars, who is an aviator of five years' experience and before that for sixteen years a balloonist of nerve and experience, controlled his flimsy craft with an ease and ability which indicated to judging. The ascent, after making a tour around the grounds, brought his ship back to terra firma alighting easily and without a hitch.

### Legal Difficulties

The ascents would have been commenced earlier in the week and the dates and at the times scheduled had it not been that Mr. Mars' partner after mortgaging the machine in Seattle for debts which he owed attempted to cut out his partner from any monetary return which he had expected to reap here. As a result Mr. Mars came to Victoria and after invoking the aid of the law secured the air ship and is now operating it himself. It was after dark when the ascent was made last night and the operator made search light which was to follow the ship was not equal to the job, but nevertheless the operations of the aerial craft was watched with interest by a large crowd which vociferously applauded when the aviator, after making a tour around the grounds brought his ship back to terra firma alighting easily and without a hitch.

Associated with Mr. Mars is F. C. Dittmar, the mechanical genius of the attraction, who is the inventor of the Humming Bird No. 11, which will appear at the A. Y. P. exposition in a short time to be driven by Mr. Mars. The engines in this new craft have been invented by Mr. Dittmar, and are considered to be a distinct advance on present engines used in aerial navigation. Mr. Mars has been filling an engagement at the A. Y. P., during which he made fifty-seven flights without a mishap. Today two ascents will be made, one in the afternoon and the other probably in the evening, but the exact time has not yet been decided upon. As an attraction the airship flight is one of the best offered at the fair, both from its novelty and also by reason of the skill displayed by the aviator.

### Concerts Given

During the afternoon concerts were given in the Women's building, which were largely attended, and also by Fletcher Bros. in the Main building, and these came as a welcome interlude to the strenuous work of making the rounds of the many exhibits.

**MURAD**  
**Turkish Cigarettes**  
**15c PER BOX**

The fireworks display in the evening repeated the success of previous evenings. The bombardment of Alexandria was realistic in the extreme, and attracted the attention of the hundreds who waited patiently for the ascent of the airship.

For today an interesting programme is provided. Being Citizens' Day and a holiday, it is certain that the attendance will be larger than on previous days. In the morning at 11 o'clock the annual meeting of the association will be held in the Restaurant building, and in the Women's building a lecture will be delivered by N. M. A. Jull, B. S. A., on "Poultry." At 11:30 o'clock the Stockmen's dinner, always an interesting annual event, will be held in the Women's building, and at 1 p. m. the usual parade of live stock prize winners will take place. At 2:35 before a Victoria audience, playing a number of violin solos in a most charming manner. This young lady is a decided acquisition to the musical talent in Victoria, her playing being musically and artistically. She will be heard in several solos tonight. Tonight's concert programme of music, supplied by M. W. Watt and Co., will be as follows:

Manzanillo, 1; Robyn  
Played on the Auto Player Piano.  
Vocal solo ..... Madame Destinn

## The Best Equipped Men's Store in Victoria

## You Sir!

We fit the man of moderate means with the correct Fall and Winter Suit in the same style, character, tailoring and fit as we show in the higher-priced clothing.

Fall and Winter Suits  
20th Century Brand  
Clothing Range from

\$15 to \$35

Peerless attire that will not only stand critical comparison with the best ordered tailoring in Canada, but will show favorable comparison.

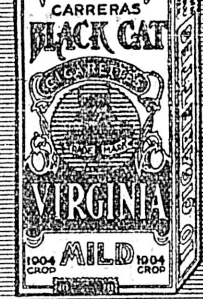

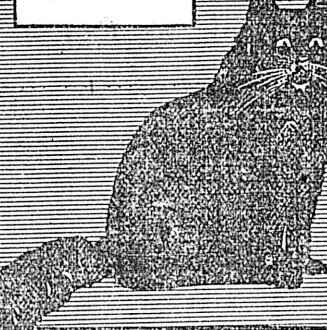

Very newest and most exclusive ideas. Now you are here for the Exhibition, do not fail to see our splendid display. Everything for the smart and up-to-date dresser.

Come in, if only to see the best equipped men's store in B. C.

## W. & J. WILSON

MEN'S FURNISHERS,  
1221 Government St., and Troughton Av.

10 for 10c.

Test a "Black Cat" with any Virginia Cigarette, at Any Price—We Stand by

Your Decision. Do It To-Day

Pay any price you like, you cannot buy better Cigarettes. The real natural taste of Pure Matured Virginia Leaf is found in every BLACK CAT Cigarette—an indescribable flavor which is only produced by Nature at her best.

Test—Light a BLACK CAT Virginia and any other Virginia Cigarette together. Smoke from each alternately and pass the smoke through the nose. The smoke from Black Cat will be smooth and mild—the other will "bite" the sensitive nerves in the nose. BLACK CAT tobacco is perfectly matured the other is "green." Any Virginia Cigarette at ANY price may be tested as above with a BLACK CAT.

10 for 10 Cents  
At leading tobacconists!

If you cannot obtain BLACK CAT CIGARETTES at your dealer's, send ten cents in postage stamps to Adolph Frankau & Co., 232 McGill Street, Montreal, and you will receive a package of 10 BLACK CAT Cigarettes by return mail, post free.

## NEW COMMANDER VISITS REGIMENT

Colonel Peters Pays Visit to Officers of Fifth Regiment

Col. Peters, D. O. C., who recently assumed command of this military district, relieving Lieut. Col. Holmes, who leaves for the east tomorrow, and General Buchanan, commanding the Quebec military district, visited Major A. W. Currie, commanding officer and officers of the Fifth regiment, C. G. A., at a meeting of the officers' mess, held last night at the drill hall. Lieut. Col. Holmes, commanding the 102nd regiment, stationed in the upper country, was also a visitor.

During the evening a presentation was made by Major A. W. Currie and the officers of the Fifth regiment, C. G. A., to the retiring commanding officer, Lieut. Col. J. A. Hall, who was the recipient of some silver plate, a silver tray and tea set, suitably engraved.

Major A. W. Currie in making the presentation referred to the devotion of the retiring commanding officer to the welfare and efficiency of the regiment during his seven years' service, and in reply, Lieut. Col. Hall, who was taken by surprise, made a pleasant speech expressing his thanks.

## DOG FLESH WAS HIS ONLY FOOD

Magazine Writer Has Arduous Experience While Mushing It in Alaska

W. E. Priestley, a well known magazine writer and newspaperman and representative of the Wide World magazine, who has had much experience in Alaska, is a visitor in the city. Last spring he had an arduous adventure in the northland. He lay for fourteen days suffering from illness with the flesh of dogs as his only food. It was on the bank of the lonely Squentna river in the Sushna country, he lay, tortured with rheumatism and unable to move, and praying that either help or death would come speedily. Only courage kept him from carrying out the alternative of death by suicide.

Few stories that have come down from the wastes of Alaska have recounted such hardships as Priestley was compelled for fourteen days to endure. He set out alone from the Innok for the outside. Six feet in height, Priestley is a powerful Englishman capable under ordinary circumstances of resisting the hardships of the musher of the North. He was within a day's journey of his destination down the Yentna river when the attack of rheumatism came on, and for two weeks he was unable to move except on his hands and knees, his ankles being swollen to the size of his thighs and excruciating pain would follow every attempt to walk.

#### Eats Last of Food

He partook of his last morsel of food on the morning that he reached the mouth of the Squentna river, his endurance being put to the test when he dragged himself along on his aching limbs, hopeful that when he reached the Yentna he would find the ice gone out and the construction of a raft an easy matter. He laid down to rest and wait for the ice to break. Two days later the glassy surface of the river moved out toward the sea, but Priestley, helped by the timbered shore, was unable to utilize the wood for the purpose which had buoyed him up during the lingering hours of keenest suffering. Gathering a few dry limbs about the spot where he had made his camp, he lighted a fire and boiled a small quantity of tea, and near to starvation, killed and ate one of his dogs. Later another dog had to be killed and eaten.

"I think it was instinct," he said yesterday, "that came to help me at this time, for I was suddenly convinced that I was to receive assistance at once, and the date of my deliverance according to my fancy, was May 14. I watched the surface of that river for miles until my eyes grew weary with the strain. On the afternoon of the day I had fixed upon a raft, with four men upon it, glided around the bend in the river above where I was lying. I was taken on board, and the journey down to Sushna station was a pleasure compared to what I had suffered. I received the best of care, but it was several days before I was allowed to eat solid food, and I did not regard my recovery as complete until about June 15. I weighed 165 when I started on the trip. When I reached Sushna it had been reduced to 140 pounds."

#### River May Bear His Name

Mr. Priestley was commissioned last year by the Wide World Magazine to visit the various camps on the Yukon river, and write a series of stories. He went to the head of the river and left Whitehorse in a small boat. He travelled all last summer and winter, and left Innok March 15 for the outside. He had five dogs and an Indian trail breaker to Big river. While on the way out he ascended Big river and discovered a large stream which emptied into it. He followed it up for a considerable distance and found extensive coal measures, samples of which were sent to Alfred H. Brooks, of the geological survey. He says the coal is bituminous and easy of access. The newly discovered river may be named in honor of its discoverer, Mr. Brooks yesterday thanked Mr. Priestley for his maps and information regarding the upper waters of Big river, previously unknown.

Taking the South fork of the Kuskokwim, Rainy pass was the route by which he crossed the range and reached the head of Happy river. One dog perished in a storm and he was forced to lie two days in his sleeping bag. He resumed his journey while the trails were filled with slush, and rheumatism set in at once.

He will remain in Seattle for a month, preparing his magazine articles, and will then go to Mexico.

Mr. Priestley is at present in the city associated with Messrs. Hitt Bros., who are conducting the pyrotechnical displays at the exhibition.

#### Nelson Fair Opens

NELSON, Sept. 22.—The Nelson fair opened auspiciously this morning. The governor-general and his party visited the caves at Alnsworth Monday.

## "ACCEPTED" BUT QUITE WORTHLESS

Clever Crook Has Been Operating Old Game to Victimise Gullible Public

"Accepted" cheques may be all right in certain cases but hereafter agents of the C. P. R. will be expected to scan any such stamped documents with a due amount of suspicion unless such substitutes for cash are known to be legitimate and worth their face value.

Within the past few months cheques purporting to be genuinely stamped as accepted have been in circulation in outside points and some of such apparently certified paper has been taken in good faith. The following telegram has been sent out by the local office of the C. P. R. company to agents throughout the country: "Agents are advised to be cautious in receiving 'accepted' cheques owing to the operation of a person or persons who are using cheques on various banks bearing an 'accepted' stamp purporting to have been placed thereon by the bank and initialed by the teller, which are, afterwards discovered to be forgeries."

## SOCIAL AND PERSONAL

Mr. C. H. Griffiths, Crow's Nest, is enjoying a visit to Victoria.

Mr. R. Ellis, from Seattle, is in town on business.

Mr. Alexander McQueen, of Victoria, is visiting Prince Rupert.

Mr. H. Villiers, from Vancouver, is in town on a business visit.

Mr. and Mrs. George Maston, from Vancouver, are over for the Fair.

Mr. and Mrs. George Huxley, from Ottawa, are recent arrivals in town.

Mrs. Sherritt, of 1126 McClure street, will not receive on Friday next.

Mr. and Mrs. F. Richardson left last night on a short visit to Vancouver.

P. H. Price went over to Vancouver on the Charnier last night.

J. W. Berry left last night via the C. P. R. on his return to Winnipeg.

R. Angus, manager of the Bank of Montreal at Brandon is a visitor in the city.

T. D. Davies left last night on the Charnier on a short business trip to Vancouver.

Mr. and Miss H. Gower, from Vancouver, are spending a few days in the Capital.

Mr. and Mrs. V. D. Landseoff, from Portland, Ore., are amongst the latest arrivals in town.

Mrs. and the Misses Hendley, from Boston, Mass., are the guests of friends in Victoria.

Mrs. and Miss Rochester, from Seattle, are spending a few days with friends in town.

Mr. and Miss D'Esle, from Vancouver, are enjoying a short trip to the Capital.

Miss Mabel Harrison, of Owen Sound, Ont., is spending a few days with Mrs. P. H. Elliott, 1330 Harrison street.

Among those on board the Princess Victoria for Vancouver yesterday afternoon was Mrs. D. C. Reid, who will spend some days in the terminal city.

Mrs. T. Wilson returned home yesterday after spending a couple of weeks in Seattle where she was the guest of her daughter, Miss Herma Wilson.

A. H. McNeil, solicitor of the Victoria Railway and Terminal Ferry company, left last night on the Charnier for Vancouver.

Mrs. D. Crossley returned last evening from a most delightful visit of some weeks' duration to friends in the Terminal City.

Mrs. N. H. Bain, Vancouver, was hostess at a pretty tea recently, given in honor of Miss Russell, of Victoria, who is visiting Mrs. John Johnston.

Major and Mrs. H. J. Williamson, from Oxford, Eng., who are touring Canada, arrived in town last evening from Vancouver, and will spend the next few days here.

Mrs. R. T. Graham and her niece, Miss Gallagher, of Winnipeg, who have been spending the summer with friends here left last night via the C. P. R. on their return to their home in the east.

R. O. Patterson, who has been spending the past month in Vancouver, where he has been racing his filly, La Petite, at Minoru park, spent yesterday in the city.

Mrs. Gaudin was hostess yesterday at a tea and jam shower, given in honor of Miss Monteith. Only intimate girl-friends of Miss Monteith were invited, about thirty being present.

Mr. and Mrs. C. O. P. Olts, of Vancouver, who have been spending a few days here, have gone over to visit the A. Y. P. Fair. Mr. Olts will attend the Odd Fellows Grand Lodge, which is being held in Seattle this week.

#### Verazzano Memorial.

NEW YORK, Sept. 22.—The corner stone of the monument to be raised by the Italians of New York to John De Verazzano, the Florentine navigator who, his countrymen say, explored the Hudson river eighty-four years before the discovery by Henry Hudson, was laid today in Battery park. The memorial will be dedicated on October 6, when Rear-Admiral Marquis de Brocchett, the Italian representative at the Hudson-Pulton celebration, is expected to be present.

## Substantiality of Chocely Selected Meats

Means health and consequently prosperity

You really are perplexed at times to know what your tastes are and what is most suitable for

## A GOOD DINNER

A visit to our store suggests the very best, our stock is so thorough that every want—and even every whim—is satisfied. A porterhouse steak meets the demands of more vigorous weather, the steaks we sell are tasteful, appetising and pleasing. Then so many lines for breakfast can be had—small steaks, ham and bacon cured to perfection, choicest sausages and other delicacies of the most tempting quality.

### RAILWAY PROSPECTS.

In view of the interview granted by Premier McBride to the representatives of the Board of Trade, yesterday, a few observations in regard to what the committee had in mind may not be untimely. Some misconception prevails as to the attitude of the Board towards railway construction. Statements have been made that its object is to secure the bridging of Seymour Narrows; also that it is hostile to any other plan than one which involves the construction of a railway from Victoria to the Mainland by way of Seymour Narrows and Bute Inlet. This is not its position at all. The Board believes it to be in the interest of Victoria, Vancouver Island, British Columbia, and Canada as a whole that a railway should be constructed across the central part of this province to a point where the shortest and best feasible connection can be made with the Island, and that the railway should be extended to more than one Vancouver Island point. It supports this claim on the intrinsic merits of the proposal, and not in opposition to any other projected railway. Its efforts are at present directed to making out the best possible case for such a railway, which, it is hoped, may be built either by one of the existing transcontinental lines or by an independent company. When it has collected all the information possible it will endeavor to carry its objects into effect.

The request submitted to the Premier was not that he would make the construction of such a railway a part of any plan to be submitted to the people of the province. Whether such a request will be made is a matter upon which no one is in a position to express any opinion. What was asked was that the government should pay for a reconnaissance survey through the coast range. This is not a very costly undertaking or one that would occupy much time, and it is quite in keeping with what a previous provincial government did, and with what the Dominion government is doing in connection with the proposed Hudson Bay railway, and has completed in respect to the Georgian Bay canal. Some ten years or so ago Mr. H. P. Bell was directed by the provincial government to make a survey for a line of railway across the province from Bute Inlet. He did so, and his report appears in the sessional papers. His line went across country by way of Quesnelmouth to the Upper Fraser at the junction of Goat river with that stream, and then went up the Fraser to Yellow Head pass. For such part of his work as was identical with Marcus Smith's Canadian Pacific survey, made in 1872, Mr. Bell adopted Mr. Smith's line, and in this was included the portion of the route from Tatla lake to the head of Bute Inlet. In other words, the route from the interior plateau through the Coast Range to the sea. While the grades on the line are not exceptionally heavy, the greatest is 1.5 per cent, or less than eighty feet to the mile, for a short distance, it is regarded as desirable in these days of keen competition to secure the easiest grades possible. When Mr. Smith made his survey mountain railway building was a new thing. There have been vast developments since, and it is not improbable that a re-examination of the route laid down by him would show that the grade could be reduced. There is also some reason for believing that a better route than that by way of Bute Inlet can be found by way of Knight Inlet. Upon these points the Board of Trade desires information, and this is as far as it has gone at the present time, and Mr. McBride has promised favorable consideration of the request when it is placed before the government in specific form.

When the information has been obtained the Board of Trade believes it will be in a position to make out such a case as will induce either one of the existing railway companies or an independent company to take up the construction of the desired line of railway, and that the complete opening of Vancouver Island by railways would follow automatically. They believe that a case can be made out to which the Dominion and provincial governments would give reasonable assistance. Indeed the former has already recognized it by a partial subsidy. They believe such a railway would cheapen the cost of transporting lumber from the coast forests to the consumers on the Prairies; that it would prove the means of saving millions of dollars worth of valuable timber; and also directly add to the provincial revenue and to the profits of the lumbermen.

### FUTURE OF VICTORIA.

During the past few years there has certainly been a very large increase in the improved acreage in the vicinity of Victoria. Those persons who have not recently driven through the suburban districts can have only a very inadequate idea of what has been accomplished in this respect. It is full of promise for the future of the city, especially when we remember that there are tens of thousands of acres of similar land within the radius of a few miles, capable in every way of equal development. Apart altogether from the advantages it may possess as a shipping point and a commercial centre, apart from its future as a residential city and tourist resort, Victoria has the most hopeful outlook by reason of the character of the immediately adjacent country. We sometimes wonder if the importance of this consideration is fully appreciated by our people. In a community devoted to fruit growing and dairy farming it is quite safe to estimate that, when it is fully developed, there will be a population of at least one person to each improved acre. It is not at all unreasonable to estimate that between Sooke and the head of the Saanich peninsula there are 100,000 acres of land that can be utilized in this way. The distance between these points is about 45 miles. Let it be supposed, for the sake of the argument, that there was one road joining these points, two miles back from the sea. It is not extravagant to estimate that there is sufficient tillage land in the area mentioned to cover two miles on each side of such a road. That is, suppose we could lay out such a road it would surely be possible to find enough land suitable for fruit and dairy farming in the whole district to be equal to an area two miles wide on both sides of such a road. This would give us 115,200 acres, and we believe this to be an underestimate of the tillable land in Sooke, Metchosin, Esquimalt, and the Saanich Peninsula. But for the purpose of this article, let us cut the area down to 100,000 acres. This would give us a residential rural population, including men, women, and children, and embracing the owners of farms and the persons concerned directly in the production and marketing of produce, of 100,000 people. Such a population would lead to a great increase in the number of the residents of Victoria, so that from the development of the farming area alone we may reasonably hope to see before many years a population of 200,000 people in this city and the suburban area above referred to. In the estimate no account has been taken of industrial development, which we may expect when the great timber resources lying immediately to the west of the city have been utilized; of the effect of the opening of the island by railways; of the result of close connection with the Mainland. All these things combine, it seems to us, to make the future of Victoria very rosy indeed. And the best of it is that a substantial beginning has been made. The utilization of the wealth of the adjacent farm lands is proceeding at a very satisfactory rate. There is a good prospect, also, of additional connection with the Mainland. Our city is growing in popularity as a residential point, and notwithstanding the keen competition to which it is subjected, the volume of its trade is steadily increasing. We regard the outlook as in every way satisfactory.

### A SOUND SENTIMENT

Speaking in Montreal, Sir William White, the great English shipbuilder, said the world must be given to understand that the whole Empire stands behind the resolve to maintain British supremacy upon the high seas. If we understand the decision of the Imperial Defence Conference aright, that is to be the future policy. To this the self-governing dominions are committed, and all that remains to be seen is the manner in which that policy is carried out. Maritime supremacy does not only mean the assembly of a force in the German Ocean that will be able to repel the attack of any European power. If this is all that is needed, enough has already been done, and the United Kingdom of herself is quite able to keep pace with anything that Germany may do in the way of shipbuilding. All the maritime frontiers of the Empire must be made safe. Such was the view expressed by Sir William White when he was in Victoria recently and we think every one will admit that it is a sound view. Sir William noted with pleasure the strong sentiment of the West in favor of contributing to Imperial defence. The despatch says "imperial navy," but we venture to think that he did not use those words, for a contribution to the imperial navy would not be in keeping with the ideas expressed by him here, and moreover there is no unanimous sentiment here in favor of a contribution to the imperial navy. There is, however, a unanimous sentiment in favor of such an expenditure on the part of Canada as will make the navy truly imperial, so far as she can make it so.

Alberta has taken to growing Indian corn and melons. We shall soon be buying our bananas in Calgary.

Mr. Charles Hayward is very welcome home again after his prolonged visit to the Mother Land.

The proposed installation of an electric smelting plant at Sault Ste. Marie will be watched with the keenest interest.

If today is as fine as yesterday was there ought to be a record throng on the Exhibition grounds. A very interesting programme has been prepared for the day.

esting programme has been prepared for the day.

The municipal government of the city of New York will expend \$184,000,000 during the ensuing year. It costs more to govern New York than any other city in the world.

The retiring vice-president of the Canadian Manufacturers' Association advocates a sur-tax on imports from the United States. What good would that do?

Montreal has decided to adopt the system of municipal government by a Board of Control. We believe the citizens of Victoria would favor such a plan.

Those interested in the wholesale fur trade predict an advance in prices. The reason is that their use is becoming more general. In many cities, where, until recently no one ever thought of wearing furs, they are becoming regular articles of ladies' dress.

Australia's military preparations are to be on a generous scale. It is said to contemplate a force of 240,000 men by the year 1916. We do not understand that any considerable number of these will be constantly under arms in time of peace. The idea seems to be to train the whole male citizenship of the country. Comment upon the proposal would be of little value without the details of the measure at hand.

A despatch says that unfavorable comment has been caused in England by an advertisement in the Mail and Empire of Toronto for a farm hand, in which occurs the words: "No Englishmen need apply." Now what does this amount to? Somebody has seen fit to say that while he wants to hire a man he does not want an Englishman. "There is no accounting for tastes," as the old lady said when she kissed the cow," and that is about all the comment such an advertisement seems to call for.

The Montreal Star, which at one time was disposed to look upon the eastern division of the National Transcontinental Railway as of doubtful utility, now says: "The Dominion Government, however, will recognize the necessity for haste. Canada is not building this road for fun. It needs it in its business." The West is growing at a marvelous rate; and it has long been a question whether the spout could carry off what was being dumped into the hopper. The link at Quebec may not be completed as soon as most of us would like."

Commander Peary says he is not going to do any more talking publicly until a competent authority has passed upon the merits of his claims. Between the contentions of the rival explorers one is inclined to sympathize with the old farmer who, after his wife's death, said: "Between the doctor's bill, the cost of burying her, the loss of time, and the cows not being milked on the day of the funeral, I sometimes almost wish she hadn't died." That's the way some of us are beginning to think about discovering the Pole.

Commenting upon the manner in which macadam is laid on the streets of Victoria, the Colonist expressed the opinion that the coating of sand usually put on served in the wet season to hasten the grinding up of the road metal. Col. Compton, an acknowledged English authority, says that the destruction of macadam is due almost wholly to attrition, and he says experience has shown that tarring the roads to make them waterproof is the only sure protection. The use of watercarts is an enemy to ordinary macadam, he says.

The prospective opening of the coal property acquired by the Pacific Coast Development Company near Nanaimo is giving the people of that city a decidedly comfortable feeling. The Nanaimo Herald says: "What it will mean to Nanaimo to have a hundred thousand tons of more coal, in addition to the mines now at work, mined within a few miles of the city, can hardly be realized. Surveyors will be here next week to locate shipping lines, etc. It is the company's intention at the present time, if the surveyors find conditions satisfactory, to ship from Jack's Point opposite Protection Island mine, and of course extensive docks and bunkers will be put in at that point, should the present plans go through."

Some days ago, in commenting upon the decision of Canada and Australia to retain the right to say whether or not their naval and military forces should be employed in the wars of the Empire, we said that the assent would always be given in the event of a war of defence, and that enforced assistance would be of little value. The Westminster Gazette takes the same view, for it says: "We are not surprised at this, because those who pay the piper have proverbially the strongest possible desire to be allowed to call the tune. Nor is the result to be regretted in any way. Provided that the forces are standardized and capable of being added up into a homogeneous whole, it is as well that the Colonies should not give up their right of control. In any real Imperial emergency we know that they will be prompt to offer assistance, whilst if that assistance is ever not forthcoming the worst possible thing would be to claim it against the wishes of the Colony concerned. All parties to the recent Conference are to be congratulated on a set of practical and sensible proposals, based on a common pride in the Empire and a recognition of joint responsibility for its maintenance and defence."

# Visitors to the Fair—Your Attention

## VISIT THE GRANDEST EXHIBIT OF HOME FURNISHINGS IN THE WEST

YOU are here to see an exhibition, so don't miss one of the chief exhibits—this grand exposition of distinctive home furnishings. You'll have missed one of this city's chief attractions if you turn your steps homeward without having visited the inside of this establishment. Welcome here—welcome to spend as much time as you wish inspecting this stock. For years this store has been famed for the quality of its merchandise, for its elaborate display, for its satisfactory service. Hundreds of B. C. homes know its value as a home maker and if you are not acquainted you should be, and there'll never be a more opportune time to start than right now. Come in today.

### 20c

Up on the second floor this price is a starter for cretonnes and other drapery materials and it is surprising what delightful patterns are shown at this figure. From this figure the price and choice of materials ranges to include every want in drapery or curtain materials.

Expert service goes with every piece if you so desire, for the service of our expert staff is yours.

### 25c

A two-bit piece will do wonders in the way of brightening up the home or repairing little items in the home, if you choose from the multitude of helps priced at this figure on the first floor. At this figure you can get a bottle of liquid veneer, a bottle of perfection furniture polish, a package of Meriden silver polish, a tube of secotine—dozens of items, much needed.

### 25c

New things in china at this little figure, and big values too. We refer to some interesting new arrivals in bread and butter plates, cups and saucers, sugars and creams, etc., priced at this figure. You'll find these on the first floor balcony. They are decorated with nursery rhymes and decorations that'll amuse the older as well as the younger generation. Worth investigating.

### 25c

And once again the two-bit piece can do excellent service in this shop—buy something much needed just now. Frosty feeling in the air says "protect the plants—take in the frail ones."

You'll find jardinières priced as low as 25 cents here and good ones, too. From this figure up, the assortment is an interesting collection of the latest ideas from several lands. Fancy brass styles.

### 20c

Floor coverings of finest Japanese matting priced at this figure. Perhaps you'll ask how we can sell such attractive pieces at this figure but the secret is in buying right—buying direct for spot cash from the largest dealers in Japan. We imported this direct—a big lot.

Just opened, many pretty patterns ranging from this price up to 30c per yard. Matting mats at 50c each.

### \$1.65

This figure takes a pair of the Weiler Bros.' brand of sheets from a big, new shipment just unpacked. These sheets are made expressly for our trade and bear our name. They come from one of the largest mills in the Empire and are of excellent quality—none other could bear our name. Fine linen finish. Size 64x90 in.

Other sizes at proportionate prices. Excellent values in sheetings also. Second floor.

### \$3.25

At this price and then in-between prices up to \$50, you'll see a choice of parlor or centre tables that'll amaze you. Dozens of styles are offered in all the popular woods and finishes, including golden oak, mahogany, and early English finish—oak. All modern styles—the latest ideas.

At \$3.25 we show a golden oak table or one in mahogany finish. See these tables on third floor.

### \$3.75

Whitney Go-Carts at this price and then at easy stages up to \$50 each. The cart at the small figure of \$3.75 is a folder—a convenient cart style and one of which we have sold a great quantity in Victoria. We have Whitney collapsible carts without hoods, from \$6.50 and show the best values in this style of cart in the city. Nothing better than Whitney quality offered anywhere. We are sole agents.

### \$4.50

Imagine a writing desk with conveniently arranged spaces and fixtures for materials at this price. We have one in maple at this figure and then another style in golden elm at \$6.00.

From these prices we show a great choice of styles in writing desks until we come to a handsome ladies' desk in circassian walnut at \$75. It's a beauty and specially priced at this figure. Come in and see the offering in ladies' desks.

### \$7.00

Hall Mirrors at this figure, and up. Have best quality bevel plate mirrors and equipped with hat and coat hooks. We have them in a great variety of styles and in golden oak and early English finish—oak. Priced from \$7.50 to \$30.00. Or hall seats to match if you prefer a hall rack instead of this combination our offerings will satisfy you. Shown on the fourth floor. Welcome.

### \$7.50

This amount will purchase an extension table made of selected fir. Made in our own factory. From this figure the price ranges up into the hundreds, but between \$7.50 and \$5.00 there is an excellent choice of tables.

We have them in golden oak and early English oak and in round and square styles—pedestal and legs. Shown on our fourth floor.

### \$7.50

Ninety-eight piece dinner service in semi-porcelain at this price! It isn't much for a service of this size and quality. Just sample of the excellent values size and quality. Just a sample of the excellent values offered in dinnerware at this store. We show a great choice of decorations and a wide range of pricings on dinnerware. Then our stock patterns appeal to many. Being able to instantly replace any broken pieces is a feature worth consideration.

### \$5.00

If you like good coffee you'll be interested in what we offer you in coffee percolators at this figure. We show the Meteor, the best coffee percolator made. This is the style for making coffee on the stove. We have them for making coffee on the table in nickel plate and copper at \$10, \$11 and \$12.50. \$5.00 style is nickel plated.

The safe and healthful way to make coffee is the Meteor way—saves its cost in short time.

### \$10.00

Morris Chairs, the most popular of easy chairs, at this figure and up. The \$10 one is made in our own factory. Frame is of oak finished golden, cushions of tapestry.

We show a great choice in early English finished oak frames and upholstered in leather. These great, large, roomy, comfortable chairs are very popular. Let us show you the great line we have priced at all prices, up to \$40.

### \$10.00

Here is something for the younger generation—metal cribs. Many special features distinguish these from the ordinary style of crib offered. They have special drop sides, non rustable springs, etc. Little features lacking in many, made by the largest metal bed makers in the world. White enameled.

Others at different prices until we reach the solid brass crib at \$45.

### \$16.00

Library tables at this price and specially good value. This one is of mahogany finish with a beautiful top highly polished. Others in golden oak, early English oak and mahogany at many prices ranging up to \$40.

We show some very attractive library tables in Early English finished oak, mission design, at \$20. You'll find here the best selection of these furniture items to be seen in

### \$7.50

Forty piece tea set in popular Carltonware at this price. Something different in tea sets at a little price. See them.

If you prefer china the assortment is one that'll surely please you—it's the finest showing of china tea sets we have shown for many a day. Your style of decoration and your price is here, for we have them at all prices ranging up to the beautiful Wedgwood creations at \$50.

### \$17.00

Sideboards at \$17.00: that's not much to pay for a sideboard. This one comes in golden oak finish, has large bevel plate mirror, two cupboards, drawer, top shelf. Splendid value at this price. Of course we have others—many of them. Prices range from this figure up to \$150 for a very handsome and massive sideboard style in golden oak. It's a collection you should see. Third floor.

### \$18.00

Buffets are much admired by many homekeepers now and if you prefer the buffet to the sideboard you'll find your taste easily satisfied here—both in matter of style and price for we show a very complete range.

At \$18.00 we show a neat buffet style in Early English oak finish. Well made and finished. Dozens of other designs in either golden oak or Early English finished oak await your inspection.

### \$30.00

For a handsome brass bed in satin finish, 1 1/2 in. posts and lots of fillers, it isn't much. This is a bed style you'll admire and it is priced at a figure that will command your attention.

We have many other styles up to each, \$120. These beds come from the largest makers of metal beds in the world, and the designs shown by us represent their very latest and best creations. No better bed values are offered anywhere.

## News of the World in Brief

### PROVINCIAL

#### Vancouver Property Deal

VANCOUVER, Sept. 22.—The property on Pender street in the middle of the north side of the block between Howe and Hornby streets and occupied as a garage has been sold by its owner, W. J. Massey, to Messrs. Cook and Craig of this city, the price being \$75,000. A little over five years ago the two lots in question, having a frontage of 52 feet and a depth of 120 feet, sold for \$1200 each.

#### Okanagan Tramway Project

VERNON, Sept. 22.—The plans of the Couteau Power company for the construction of a tram line eastward from Vernon through a rich fruit-growing section are maturing rapidly. Surveyors have been going through the district for some time and statistics have been gathered concerning the possible revenue from light and power in the different localities which will be served. The company has the financial backing of English capitalists and will develop the power of Shuswap river falls, twenty-five miles from Vernon. It is reported that there is sufficient power at this point to electrify the entire Okanagan valley. It is planned to build the tram line from Vernon eastward through the Coldstream ranch property to the power plant, a distance of some twenty-five miles, to start with, according to report. It is understood that work is to be started on the power plant this year and that the tram line will be pushed to completion at an early date.

### CANADIAN

#### Minister Graham Ill

OTTAWA, Sept. 22.—Hon. G. P. Graham is confined to his room, suffering from a severe cold.

#### Lord Balfour of Burleigh

MONTREAL, Sept. 22.—Lord Balfour, of Burleigh, member of the West India commission to investigate trade

conditions between Canada and the West Indies, and Lady Balfour passed through the city today en route to Ottawa. They had been to Portland, Maine, where they visited Ambassador Bryce.

#### Alberta Harvest

CALGARY, Sept. 22.—According to the weekly crop report for the province, 99 per cent of the grain crop is harvested, and from all sections come reports of record yields. Gleichen reports that wheat will average 40 bushels to the acre. It is expected that 75 per cent of the grain in the province will be threshed by the end of this week.

#### Hobo From Choice

CHATHAM, Ont., Sept. 22.—John D. Wright, formerly a Pere Marquette railway brakeman, was sentenced to three years in the penitentiary today for tampering with railway switch lights and taking mail waste from the cars with which to build fires. Wright was a brakeman for eighteen years, when he took to hobnobbing because he said it looked easy.

#### Electric Smelting Plants

OTTAWA, Sept. 22.—Arrangements are being made for establishing the first electric smelting plant in Canada at Sault Ste Marie in connection with the Lake Superior Consolidated company's iron and steel plant. That company is to install a number of furnaces similar to those in operation in Sweden. Another plant is to be established at Chats Falls for the treatment of iron ores on the Ottawa river.

Sterling silver flat and hollowware, etc.—1, J. M. Brown.

Intermediate Grade—School Exhibit  
Brush work—1, Miss May Roberts.  
Map drawing (four Western Provinces of Canada)—1, G. Winterburn.

While employed with McLaughlin's construction gang at Spences Bridges last Friday, Leslie Stewart met with a fatal accident, falling from the pole ramp to instant death. The body has been forwarded for interment to Prince Edward Island, Stewart's former home.

A new English mail record of ten days to Vancouver has been established.

## The New Corsets for Fall

The fit of the new gown will depend a great deal upon the Corset. That is why particular care should be taken to secure a corset which will conform to every dictate of fashion. One that will accentuate the snug fitting waist and hip lines so essential to a correct delineation of the Old French effects which mark the Fall styles.

The Correct Solution of this Corset Problem Lies in

AN AMERICAN LADY OR THOMPSON'S GLOVE-FITTING CORSET

These corsets are known from the Atlantic to the Pacific as the premier Corsets at a modest price. Only the best materials enter into their making, they conform perfectly to the body and are made along health-giving lines.

The new models for Fall are ready, perfect corsets for securing perfect fitting garments. Come and see the new styles, and if you wish to know what real corset comfort is choose an American Lady or Thompson Glove Fitting for your Autumnal need. Our expert saleswomen will fit you perfectly.

We also are ready with a complete stock of bust formers and brassiers, together with children's and misses' corset waists in hygienic models. In fact everything that a modern corset shop should have is found in this department.

## NEWS OF THE CITY

### Ladies' Society to Meet

The Ladies' Society of St. Paul's Lutheran church will meet at the home of Mrs. Kosche, Friday evening.

### In Charge of Church

Rev. Otto G. M. Gerlich has arrived at Victoria from Columbus, Ohio, to take charge of St. Paul's Lutheran church, Mears street.

### W. C. T. U. Meeting

The regular meeting of the W. C. T. U. will be held this afternoon at 3 o'clock in the rooms of the King's Daughters, Fort street, when a full attendance of members is requested as matters of importance to the members will be considered. The sub-executive is requested to meet at 2:30 o'clock.

### Quiet in Police Circles

Despite the fact that the fair is in progress there has been a remarkable scarcity of the tough element in the city. It is doubtful if ever, within the past few years at least, have the police authorities been less worried by the presence of the undesirable. The fair grounds have been remarkably free of the customary number of suspicious characters and few, if any, cases of theft or wrongdoing have been reported.

### Will Talk Pavement

A special meeting of the city council will be held tomorrow evening, prior to the regular weekly meeting of the streets, bridges and sewers committee, when the question of the pavement proposed to be laid between the junction of Yates and Fort streets and the junction of Oak Bay avenue and Fort street, will be considered. The city has decided to call for tenders for the work, the city engineer to also put in a tender, and it is probable that the city engineer's report on cost of laying wood blocks and also vitrified brick will be forthcoming.

### At Pantages Theatre

If a long, loud and continuous spell of laughter will do one good it can be secured at the Pantages this week, for Rogers, Sherman and Luken are there and they are exceedingly funny. "A Visit to Uncle" is quite different from anything presented heretofore in the comedy line and is attracting much attention. Those who care for clever acting and a classic play will be thrilled and pleased with Robert Louis Stevenson's weird story, "Dr. Jekyll and Mr. Hyde," as presented by Mr. James Keane and company. In fact every number on the programme is of an especial merit and it is the kind of a show in which every one can find something to his liking.

### Lectures on China

Rev. R. E. F. Taylor, who has been appointed by the Methodist Missionary Society to the China field, delivered an interesting lecture in the Spring Ridge Methodist church last evening, illustrated by lantern views, on "China and Its Manners and Customs." There was a large attendance and a liberal financial response. Rev. Mr. Taylor will lecture this evening at the Metropolitan Methodist church on the same subject. He will leave on the 20th prox. with a party of missionaries bound for the West China field. They will sail on the Montague. Before leaving he will be ordained at a public meeting at the Metropolitan Methodist church on the 19th prox., at which time an Epworth League and Sunday school convention will be held.

### "Paid in Full"

The play of the time and one of the most popular, will be the attraction at the Victoria theatre on Monday next, when the Wagonmasters & Kemper Co. offers Eugene Walter's "Paid in Full" with a cast that brings out the dramatic qualities, the human sympathy, the comedy that makes this one of the most appealing works the stage has seen. "Paid in Full" is a masterpiece. It contains every factor that lifts a play to highest place in public favor. Two years in New York it ran, going without halt through a summer, exceeding in drawing power the musical shows that until then had been the only form of weather theatricals Broadway would patronize. At the same time in Chicago it scored an all summer run. Then throughout last season five companies appeared in it. It is a living story of the hour, depicting with power conditions and persons that help make up the human sum of every city. Every atom of its entertaining quality will be brought out to the full.

### FREE CONCERTS AT THE FAIR.

Visitors and city folk alike are much enjoying the fine vocal and instrumental concerts, which commence at three o'clock every afternoon at Fletcher Bros' pavilion in the Manufacturers' Building. Miss Margaret Nyland is in splendid voice. Her accompanist, Mr. Harrop, himself a fine pianist, also delights lovers of good music with his fine selections.

The following will be the programme for this afternoon:

Rustle of Spring (Lindley)—Behning  
A Dream (Hartlett)—Miss Nyland  
Vocal Selection (Caruso)—Columbia  
Graphophone.  
Trauer (Schuman)—Behning  
Last Rose of Summer, Song—Miss Nyland.  
Vocal Selections (Melba)—Columbia  
Graphophone.

### SEATTLE TICKETS INTER-CHANGEABLE

Between C. P. R. and S. S. Iroquois, leaving daily at 9 a. m.

### A MERITORIOUS EXHIBIT WELL WORTH SEEING

Of more than usual interest to ladies visiting the fair is the exhibit of The W. A. Jameson Coffee Co., manufacturers. The display of their products is decidedly attractive, and with the many tinted labels bearing the name "Victoria Brand." A souvenir in the form of a small sample tin of tea or baking powder is presented to each lady visiting the booth. There are many brands of coffee, tea, spices, jelly powders, extracts, etc., produced by this enterprising firm in their up-to-date factory, which is equipped with the most improved coffee and spice grinders, baking powder mixers and other machinery. As a criterion of the volume of business done by this firm it may be mentioned that at the exhibit yesterday 3,000 pounds of Feather-Light baking powder were sold to a single customer. This evidences the merits of the goods in a substantial manner. There is so much of interest in this exhibit to ladies and so much to instruct that a few minutes talk with those in charge is well repaid.

## THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p. m., September 22, 1909.

SYNOPSIS  
The barometer is low over Northern British Columbia and rain is general there from the Coast to Cariboo, while from Vancouver Island southward the weather is fair and during warmer, with northerly winds along the Coast.

## ENJOYS TRIP BUT GLAD TO BE BACK

Mr. Charles Hayward Returns Home After Extensive Visit to the Old Land

Charles Hayward returned on Tuesday evening from a five months' tour of the Old Land and the Continent. While thoroughly enjoying his travels, he expressed himself heartily glad to be back again in Victoria. His journey led him through Chicago and New York, where he had excellent opportunities of looking into the administration of their fire departments. At Chicago, particularly, he was much impressed with its thorough and effective organization, not the least important detail of which was the imperative requirement that officers and men should have a complete and intelligent knowledge of the interior arrangements of each building in their particular district; the nature of the stock carried, and the most efficient way of attacking a fire. The salvage corps was found to be a most useful adjunct to the regular fire force, besides saving in most cases considerable losses.

Mr. Hayward visited the beautiful city of Stratford-on-Avon during the Shakespeare celebrations, and heard some of the greatest actors of modern times in the Memorial Theatre in such plays as Cymbeline, King John, King Lear, Merry Wives of Windsor, King Henry the Eighth, and, of course, Hamlet and Othello. It happened during this week that an election in the constituency of South Warwickshire took place, Joseph Martin, K. C., being candidate in the Radical interest. It seemed the proper thing to do to call on "Joe," and he was found alone in his hotel, apparently pleased to meet old Victorians in a strictly private and non-political way. On the following day, however, the Government organ, the Daily Chronicle, published under attack headlines a statement that "Mr. Charles Hayward, ex-Mayor of Victoria, and a prominent Tory," had called on Mr. Martin to wish him success in his campaign, and to deny certain damaging facts which had been published by Canadian Tories. This outrageous item caused much comment and necessitated giving the opposition press a truthful account of the interview, and advising the electors to follow the example of their Canadian brethren and discard Joseph. Since then Mr. Martin has secured the nomination, in the Radical interest, of a large London constituency at the approaching general election. It is generally supposed that "Fighting Joe," the services will be recognized by the government, and that he will ultimately emerge from his conflict in full bloom, as "Sir" Joseph.

Mr. Hayward visited the majority of the leading historical points of the Old Land, and expressed himself delighted with all he saw. The return trip across the Atlantic in the splendid steamship, Empress of Canada, gave him an opportunity of investigating the general trend of immigration towards Canada and the favor in which the St. Lawrence route is regarded by reason of its short open season.

The American customs officers came on board with the pilot at Ramouki, in order to facilitate the quick despatch from Quebec by examining on board the baggage destined for places in the United States. It was generally admitted that these customs officials dealt very fairly with these Americans; but there was one proud woman who, when questioned about a handsome dress in her trunk, that had not been worn, indignantly rejected his generous appraisal at £20, by saying that she did not wear frocks of that kind, and that she had paid £220 for it in Paris, and she was then and there charged with nearly £20 duty.

Mr. Hayward speaks in flattering terms of the comfort and pleasure of a trip across sea and land by the C. P. R. St. Lawrence route in a little over ten days from Liverpool to Vancouver, as compared with his first experience over forty-seven years ago, when it took him, with the utmost expedition, over fifty days to reach Victoria via the isthmus of Panama and San Francisco.

## SEAL HUNTER NOT VICTIM OF MURDER

William Shields Was in Victoria When Namesake Was Killed at Prince Rupert

W. Shields, a well known seal hunter, like Mark Twain, states that the reports of his death were much exaggerated. When a William Shields was

killed at Prince Rupert some days ago telegrams from the northern port to a local newspaper referred to the victim of the murder as "William Shields, a well known sealer of Victoria," but the well known sealer was in Victoria at the time.

The Prince Rupert Optimist, received yesterday's mails, gives further particulars of the northern tragedy. It says: "Charles Egan and John McKenzie went into the Maple Leaf cafe for a lunch. Both were drunk. They had come down the river and over from Port Esquimalt on the Princess Royal. Egan had a large black dog with him called 'Nigger.' On the trip over the man had forced a drink into the dog, and then poured the contents of the liquor bottle on the deck. Subsequently he fell in the water, and the empty bottle while 'immersed' became partly filled with salt 'chuck.' That was the cause of the quarrel."

"While eating, the pair happened upon Shells, who has been in town for a couple of weeks drunk. He had a bottle of vile whisky with him. Shells being offered a drink by Egan, took a pull at the bottle of salt water, and then started to abuse Egan for playing a dirty trick on him. Bad language followed, and Shells struck Egan."

"A few minutes later they were in a scuffle and the two witnesses at the other end of the counter saw Egan strike Shells, apparently with a knife. McKenzie took rather an inactive part in the affair, merely being in the scuffle. Shells, after being stabbed, walked a few feet and fell to the floor. He died almost instantly."

## OWNERS WANT NEW ESTIMATE

Spring Ridge Residents Believe Cost of Proposed Improvement Can Be Reduced

Just because, the Owners assert, the city engineering department failed, before making the surveys of the Spring Ridge section wherein it is proposed to make extensive improvements, to communicate with the property owners to be benefited and ascertain just what the owners would be willing should be done to do away with the present unsightly gravel pit section, further time and possibly expense will be imperative in order to prepare another plan of the section and furnish new estimates of cost necessitated by reason of the change.

The past three months the department has been busy preparing plans and profiles of the streets in the district to be improved by the leveling of hills and filling in of hollows. This work done under the superintendence of Mr. Hicks has been a rather costly one owing to the great amount of labor involved. The report with the estimate of cost was made on Tuesday evening to the members of the joint committee of the city council and property owners. The estimated cost was \$182,000, which amount, after the committee had climaxed a large amount of work which was not considered necessary at the present, but which could later be done under a separate local improvement scheme, was reduced by no less than \$120,000. This reduction placed the estimated cost of the work at a figure which about satisfied the owners who are convinced that the material which will be secured in the regrading scheme will more than pay for the total cost of effecting the improvement. But the owners also consider that had the engineer first consulted with them the grades which have already been struck would have been so determined that a great deal more material could have been secured.

Yesterday morning bright and early, Alderman Stewart and Messrs. Gleason, Marchant and Brown together with the city engineer and R. F. Lawrence, again went over the territory proposed to be incorporated in the improvement scheme and decided that further plans and profiles be prepared to conform with the owners' ideas and another estimate of cost prepared. Just when this second report will be ready is uncertain but the owners predict that the new figures will show that the scheme can be financed at a cost quite reasonable and that when completed and the city has credited the properties with the amount of material taken away there will be a balance in favor of the owners.

Miss Elizabeth Busse, of Minneapolis, is visiting the city, renewing old friends.

## MUST BUY WATER BY THE GALLON

Some of Civic Fathers Believe That Step Will Be Forced Upon the City

That the city, despite whatever arrangement it may make towards locating a future adequate source of supply, will, in the meantime, have to satisfy its daily needs by the purchase of water by the gallon from the Esquimalt Waterworks Company, is the firm belief of several of the aldermen. Alderman Henderson has come forth with a proposition to secure all necessary data on the possibility of increasing the Elk Lake watershed. This move of Alderman Henderson's indicates that he believes that with an addition to the area which may be drained into Elk Lake there will be sufficient water, now that the capacity of the lake has been increased by the raising of the dams and banks a height of nearly three feet, to meet all requirements until such time as the city secures another source.

At last Monday night's meeting of the council, Alderman Henderson advanced his proposition, which carried, but while this latest evidence of the council's insatiable thirst for information will doubtless be fulfilled, other of the aldermanic body believe that further action is necessary, that while information is piling up in the archives of the city some real definite step to grapple with the water problem should be taken.

Alderman Stewart is one who is against any further expense in getting information relative to Elk Lake. The Mty. he claims, has all the facts before it, at least insofar as that locality is concerned, and he believes that the cheapest, and in fact the only step which the city can take, pending the securing of a permanent source of supply, is to buy water from the Esquimalt Waterworks Company. That company is bound to supply the city with a minimum daily supply of 500,000 gallons and a maximum of 5,000,000 gallons, provided the city enters into a contract for the same for five years. It will take, Alderman Stewart says, quite that length of time before Sooke Lake is developed, and in the meantime Elk Lake will not be capable of supplying the city's needs. It would, he believes, cost a large amount to secure the additional watershed required at Elk Lake, while to divert streams into the lake would raise the question of the rights of riparian owners.

Alderman Mable also believes that the city will ultimately be forced to purchase water by the gallon from the Esquimalt Waterworks Company.

In the meantime the company is going ahead with its scheme of enlarging its distribution system, and putting itself in a position to so increase its deliveries that within a comparatively short time it will be able to deliver some fifteen million gallons per day to its customers, an amount which will not be required for several years, but which some of the aldermen believe will by the time the city has to appeal to the company for a supply, give the city all it requires pending the time the future source of supply of the city is secured.

### Travel is Heavy

Travel continues very heavy on the interport service maintained by the three-funnelled liners of the C. P. R., the Princess Victoria and Princess Charlotte. According to officers of the latter steamer on the round trip, prior to that completed when she arrived from Vancouver yesterday afternoon, the liner handled 2,800 passengers. Since the beginning of August the steamers have been carrying in the neighborhood of 60,000 passengers a month.

Greenwood is experiencing difficulty in filling the seats at its council board. Nominations were to have been received for three aldermanic vacancies last Monday, but there were no seekers for the honors.

The new St. Paul's church at Vancouver was formally dedicated last Sunday, the bishop taking a prominent part in the proceedings.

## HORSE SHOW IS BIG ATTRACTION

(Continued from Page 1.)

and beautiful action. The second award went to Brigham Pearl belonging to D. L. Howe of Vancouver. The appointments of all the entrants were admirable.

In the pair of mares, or geldings class, shown to a brougham of victoria, there were only two entrants. The pair owned by Mrs. A. E. Tregent of Vancouver, possessed fine action, and were well matched. They clearly outclassed the local entry of Dixie H. Ross & Co.

In the special pony class Miss Helen W. Farrell, the young lady from Renton, Washington, who was to the fore at last year's show was again successful. She had a beautiful little roan mare which she rode with consummate ease, displaying its paces to perfection.

Jumping Events  
In the ladies' hunters class there were only two entries. White Heather, a gray mare, gave a good but by no means a finished display, and was awarded the prize. The other competitor, Don Pedro, made a couple of good jumps, but had to be whipped on every occasion.

The other jumping display from mares and geldings, 15.2 and over, brought out some good animals. Golden Cross gave an excellent exhibition, taking the jumps in finished style. Don Pedro made up in some measure for his previous deficiencies by taking second prize.

Only two entries, both from the Victoria Transfer Co., turned out in the display of four horses, 14.2 and under, shown to a tally-ho, or other appropriate vehicle. The exhibition of the tally-hoes, so well known in the city, proved popular with the spectators, and the action of the animals and the way they were handled were much admired.

Among the boxholders who were present last night were noticed Mrs. F. Pemberton, Victoria; D. Spencer, Victoria; H. A. Robertson, Victoria; G. H. Barnard M. P., Victoria; J. F. Fullerton, Victoria; J. A. Robb, Victoria; H. G. Ross, Victoria; M. G. Gouge, Victoria; D. C. McGregor, Vancouver; C. M. Marpole, Vancouver; G. L. Howe, Vancouver; Mrs. Loewen, Vancouver; J. A. Russell, Seattle; T. J. Smith, Vancouver; A. E. Tregent, Vancouver; J. D. Farrell, Seattle; A. H. Eskford, High River, Alta.; W. H. Bullock, Salt Spring Island; Helmecken and Mrs. Helmecken, in the visitors' box.

The band of the Fifth Regiment was in attendance and during the evening played selections.

The results of the different events adjudged last night follow:

Vancouver Winners.  
VANCOUVER, Sept. 22.—First race, 6 furlongs selling, three-year-olds and upwards—1, Alleviator; 2, Wamboro; 3, Melton Cloth. Time, 1:14 4-5.

Third race, 1 mile, selling, three-year-olds and upwards—1, Irish Mail; 2, Long Ball; 3, My Bouquet. Time, 1:42 3-5.

Fourth race, 7 furlongs, selling, three-year-olds and upwards—1, Sea Lad; 2, Beautiful and Best; 3, Othmar. Time, 1:30 3-5.

Fifth race, 7 furlongs, selling, three-year-olds and upwards—1, Renee W.; 2, Flaygny; 3, Harry Rogers. Time, 1:25 3-5.

Sixth race, 1 mile and 20 yards, selling, four-year-olds and upwards—1, Convent Bell; 2, Ed. Ball; 3, Lucy C. Time, 1:45.

Dr. Cook's Records

NEW YORK, Sept. 22.—Dr. Frederick A. Cook, seeking rest and seclusion with his family after the boisterous welcome of yesterday, denied himself to interviewers and remained in his suite at the Waldorf-Astoria until late this evening, when he submitted cheerfully to one of the severest cross-examinations since he announced his discovery of the North Pole. In the course of the interview Dr. Cook was asked: "Will you describe in detail any single observation taken by you at the North Pole with the exact figures of the results and the corrections applied?" "Not at this present moment," he replied. "We will describe every one of them in detail when they go to the University of Copenhagen. They will go there within two months. The

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

## Mr. Cook Has Exciting Time

I Will Appear at Spencer's  
Store Between 10 and 11  
o'clock This Morning,  
Catch Me and Win  
the \$50.00

This Is One of the Mysterious White  
Swan Washing Powder Man's  
Photos—An Entirely New One  
Will Appear Tomorrow

Well, folks, you certainly gave me a lively time yesterday morning in front of Spencer's arcade, and the way you jostled with everybody certainly was amusing; nevertheless, a few of you came very near nabbing me and winning the money. While in the crowd yesterday morning I was greatly amused at the elderly lady (who, by the way, had on a very brilliant hat). She was stopping everybody who came her way, but just imagine the dear soul, letting me go by and with a coupon of White Swan Washing Powder—in my hand. Of course, I was in the game too, stopping everybody who came along.

### WHAT I SAW AT THE FAIR

Well, yesterday afternoon I boarded a Willows car and went to the fair grounds, and was greeted by a much larger crowd than happened to be there on Tuesday. I visited the Ladies' Building and spoke to a stout lady there who I understand is one of the exhibitors of fine work. After walking around leisurely I returned to the city and had dinner in the Maryland restaurant, afterwards having a nice, quiet smoke. In the evening I again went to the fair. But say, folks, I certainly had a laugh on you. I visited the White Swan Washing Powder exhibit and saw our worst-acting advertising manager, badly gagged in conversation with two ladies and a gentleman. The ladies wore a black suit, while if I could see correctly, the gentleman had on a brown suit. I then walked out to see the fireworks and was just coming in the door when I noticed a young lady at black walk up to the young man at the wireless telephone booth, and ball him up—no doubt, as being the Mysterious Mr. Cook. Well, say, I could hardly keep the enamel from falling off my face. I also noticed a young man and our advertising manager, laughing hard enough to split their sides. The lady's name I afterwards learnt was Mrs. Harry Austin. Never mind, Mrs. Austin, better luck next time.

### WATCH FOR MR. COOK AT THE FOLLOWING PLACES TODAY

Between 10 and 11 o'clock in the morning, I intend going into Spencer's store. At 12 o'clock I shall be at the corner of Yates and Government streets. At about half past one or two o'clock I shall board a car for the fair. At 2:30 I will take a walk to the White Swan Washing Powder exhibit and, by the way, folks, you do the same and see the splendid list of premiums which are given away free in exchange for the coupons. At 6:30 o'clock in the evening I shall be at the corner of Fort and Government streets, and, if the conditions, simply come up to me and say "You are Mr. Cook, the mysterious White Swan Washing Powder man," at the same time show a coupon of White Swan Washing Powder; if you are right, the money is yours. But don't get excited. One lady has done so sure yesterday, but she got excited and accosted me in the wrong way. So remember the words.

## Collegiate School

The Laurels, 1249 Rockland Avenue, Victoria, B. C.

APPLY HEADMASTER.

indictment when returned by the federal grand jury contained sixteen counts, but Judge Hough sustained a demurrer to all the counts but the last one. This involves the alleged loan of \$500,000 made by Mr. Heinze to himself on October 14, 1907. No date was set for trial, and Mr. Heinze was allowed out on bail.

Quebec Village Scorched  
MONTREAL, Sept. 22.—Fire at Yamaska West, a village about 80 miles southeast of Montreal, yesterday destroyed fifteen houses, including the court offices and central telephone office, and rendered twenty families homeless. The loss is estimated at \$50,000 with about \$50,000 insurance.

Last of Barnum's Midgets.  
BOSTON, MASS., Sept. 22.—Rodina Nutta, last male survivor of the late P. P. Barnum's famous midget troupe, died at his home in Dorchester today, at the age of 69 years. Since retiring nineteen years ago, "Major" Nutta, as he was known, had conducted a successful real estate business. Heart trouble caused death. He was a brother of "Commodore" Nutt, who died in 1881.

For Fulton Celebration.  
NEW YORK, Sept. 22.—Among the prominent foreign journalists who have arrived to take part in the Hudson-Fulton celebration is G. J. M. Simons, vice-president and American editor of the Telegraaf of Amsterdam, Holland, who accompanied the official delegates from Holland, arriving on the steamer Nieu Amsterdam. The Telegraaf, formerly the Amsterdam Courant, is said to be the oldest newspaper in Europe, dating back 300 years.

LEOPOLDVILLE, Belgian Congo, Sept. 22.—The charge brought against Rev. W. W. Morrison, an American missionary, by one of the Congo concession companies, which has a monopoly of rubber gathering in the Kasai region, have been withdrawn, but the plaintiffs reserve the right to bring suit later for damages. Rev. W. H. Shelward, another American missionary, has been sued for \$6,000 by the same company for "calumnious denunciations," the suit being based on an article which appeared in the Kasai "Herald." Judgment in this case will be rendered on October 4.

### Connection Via Bute Inlet

With a view to inducing the provincial government to carry out a survey from Bute Inlet to Tatla Lake to show the possibilities of transcontinental railway connection for Vancouver Island by that route, the railway committee of the board of trade waited on Premier McBride yesterday. They pointed out that the existing surveys were made years ago, and that since then conditions have altered, and that it would now be possible to locate a much easier grade. The premier said that upon receiving further information the matter would be considered by the government, and if it was then found that the survey gave promise of elucidating valuable information, and if there was still enough money in the appropriation for surveys left, the work would be carried out. The board of trade committee will compile the further information that the premier is anxious to obtain.

### TO KILL THE DANDEUFF GERM.

Is the Only Possible Way of Having  
An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause and you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.  
One dollar bottles guaranteed.

### DUTCH WRESTLER IS AFTER BOUT WITH GOTCH

NEW YORK, Sept. 22.—Among the passengers who arrived on the steamer Caronia yesterday was Zbyszko, the champion wrestler of Holland, who intends to challenge everybody in the heavyweight wrestling class, including Frank Gotch, the world's champion. He

has defeated every person whom he has met in Europe, including Ivan Padonney, the Russian wrestler, who defeated Hackenschmidt in two straight falls, each of which was secured in less than one minute.

Zbyszko is booked to make his first appearance in this country at Buffalo on October 7 when he will meet three of the best heavyweights in that section.

### Bilious?

Doctors all agree that an active liver is positively essential to health. Ask your own Ayer's Pills are the best liver pills you doctor about Ayer's Pills.

"How are your bowels?" the doctor always asks. He knows how important is the question of constipation. He knows that inactivity of the liver will often produce most disastrous results. We believe that Ayer's Pills are the best liver pills you can possibly take. Sold for over 60 years.

second heat Princess Sunrise was again to the fore, the positions of the second and third animals being reversed. The same three had it all their own way in the third and final heat, and the Princess demonstrated that she is the best trotter seen out at the fair meet up to the present. In the final heat she took the lead entirely, and was never in difficulties, winning easily. The event was for a \$500 purse.

The second race, a galloping weight for age event, provided a close and exciting finish. Only four horses competed. Beaver Dam Lad, who was unlucky to lose his race on Tuesday, was established an odds on favorite, with Redondo second in demand at even money. Preen also carried a lot of money. The field was very restive at the starting gate, Preen being especially at fault. A long delay ensued before the barrier finally went up. Escalante being left a couple of lengths. Redondo immediately went to the front, with Beaver Dam Lad in close attendance and Preen third. Entering the back stretch, Preen made an electric sprint, passing the two leaders and getting an advantage of half a length. Keogh, however, was unable to hold his advantage, and coming up the straight Redondo again worked up to the front. Beaver Dam Lad, who made a fast run home, was second, beaten a head by Redondo, with Preen third.

#### Sink Spring's Easy Win

The next event, a six furlong selling race, could only muster a field of four. Sink Spring opened at odds on, Belle Kinney being second in demand. The field was sent away to a good start, Belle Kinney jumping into the lead, an advantage which she maintained until nearly half the distance had been covered. Sink Spring then shot to the front, and never being in trouble, won in a canter.

The concluding race was won by the outsider of a field of three. Mechant wound up a 9-2 on favorite, with Buna quoted at 5-2 and Margaret Randolph at 7-1. The outsider went off at a hot pace and soon had established a commanding lead. Rounding the final bend, Mechant commenced to make up ground, but the leeway was too great, and the St. James Stable mare came home an easy winner. The win was the most popular of the day, the grand stand rising and cheering Margaret Randolph as she swept past the judge's box.

Considerable dissatisfaction is being expressed among the public at the odds offered in the betting ring. In some instances there have been two odds on favorites in a race, a thing unheard of on a racetrack where the theory of chances is properly followed. Yesterday, in the concluding event, Mechant was quoted at 5-1 on and Buna at 5-2 against. The rudiments of betting teach that if the favorite is quoted at 5-1 on, the next horse in the betting sequence must be 5-1 against. These facts seem to be entirely overlooked by the bookmakers operating at the Provincial Fair, and the public in consequence think they are being hardly treated.

Larger fields will be seen out today, the following additional animals having arrived from the Minoru race-track: Christine A., Zick Abrams, Semprole, Titue, Peggy O'Neill, George Kilburn, Otto Price and Aclabias.

#### Results

The Times Purse (for 2:30 trotters and 2:35 pacers), one mile heats, 3 in 5, purse \$500—First heat: 1. Princess Sunrise (H. Grouett); 2. Czenta (R. Richards); 3. Light Out (W. Millington). Time 2:24 3-5. Second heat: 1. Princess Sunrise (H. Grouett); 2. Light Out (W. Millington); 3. Czenta (R. Richards). Time 2:24 4-5. Final heat: 1. Princess Sunrise (H. Grouett); 2. Light Out (W. Millington); 3. Czenta (R. Richards). Time 2:25 3-5.

Galloping race (weight for age); purse \$200; distance four and a half furlongs—1. Redondo (Brooks); 2. Beaver Dam Lad (Leeds); 3. Preen (Keogh). Time 56.

Galloping race (selling); purse \$200; distance six furlongs—1. Sink Spring (Brooks); 2. Belle Kinney (Gaugle); 3. Julia C. (Keogh). Also ran Lack-foot (O'Keefe). Time 1:15.

Galloping race (weight for age); purse \$200; distance seven furlongs—1. Margaret Randolph (Gaugle); 2. Mechant (Leeds); 3. Buna (Keogh). Time 1:30.

#### ROCHESTER FANS PLAN BENEFIT FOR PLAYERS

ROCHESTER, N. Y., Sept. 22.—The Rochester baseball public is planning an event in local baseball history for Oct. 2, at Baseball park, here. The city expects the Eastern league pennant. Whether or not that comes, there is to be a field day in which the entire proceeds will go to the Hustlers, or the Rochester ball club. The Rochester News-writers' club is directing the affair. The town is baseball crazy. Mayor Edgerton says the team, by keeping first place since May 6, has been a great advertisement to the city.

## MARSH MATCHED WITH INDIAN

Speedy Canadian Runners Will Enter at Vancouver Tomorrow

Paul Acoose, the Grenfell Indian who made such a good impression on the followers of long distance running in this city last at last been matched with John D. Marsh, holder of the world's professional record.

Before he left this city Acoose said that it was his ambition to meet the speedy Winnipegger over a distance of twelve or fifteen miles before going back to his home at last. He intimated that Marsh was afraid of him over any other distance except the Marathon and thought that he would have to return to the prairie town without a race with Marsh. He got as far as Vancouver and there a match was arranged for tomorrow evening when they will run the twelve-mile race at Recreation Park.

### A Good Race.

This should be one of the best contested races that has been held on the Pacific coast in some time as both these runners are evenly matched. In his match with Shrub's in Winnipeg Acoose won out by the former quitting in the early part of the scheduled twelve-mile race. Since that time Shrub has met Marsh and in this race, which took place at Vancouver on Labor Day evening, he quit once again before the tenth mile had been completed. This leaves Marsh and Acoose on about the same basis and in view of the fact that they have never met before, tomorrow evening's race should be a great race. Marsh told the writer a few days ago that he was not afraid of Acoose, Shrub or any other runner, but he also said that he would meet either of the famous runners when the proper inducements were offered.

After his race with Marsh, the prairie Indian will not tarry on the coast, but will leave at once for Grenfell, as his wife is very ill at that city and he is anxious to join her.

### Shrub Out of the Game.

VANCOUVER, Sept. 21.—Alfred Shrub, the peer of all middle and long distance runners said this afternoon that he was out of the game temporarily and that he would not challenge the winner of the Acoose-Marsh race or either, as his leg was still bad and he would be unable to compete in any races successfully for some time to come. The great little Englishman's intentions are to return home to Toronto and rest until such time as his leg may get in perfect trim and then come back to the coast and do his best at the distances at which he is superior.

## BASEBALL

### Northwestern League

At Spokane—Vancouver, 4-7-2; Spokane, 5-4-3.  
At Seattle—Seattle, 5-8-2; Aberdeen, 2-6-5.  
At Tacoma—Portland, 7-7-4; Tacoma, 5-9-6.

### Pacific Coast League

At Los Angeles—Sacramento, 4-10-1; Vernon, 1-8-3.  
At Portland—Los Angeles, 1-9-1; Portland, 2-6-1.  
At San Francisco—Oakland, 3-4-0; San Francisco, 4-8-1.

### National League

At St. Louis—New York, 4-12-2; St. Louis, 3-3-5.  
At Cincinnati—Cincinnati, 4-11-3; Philadelphia, 4-8-0.

### American League

At Washington—Washington, 3-3-3; Detroit, 8-16-2.  
At Philadelphia—Philadelphia, 3-9-4; St. Louis, 2-8-2.

### Eastern League

Montreal, 0-2-1; Newark, 1-4-1.  
Rochester, 3-4-0; Baltimore, 0-6-0.  
Toronto, 4-11-1; Providence, 0-6-1.

## NORTH WARDS WORKING HARD FOR TITLE

Game for Junior Lacrosse Championship Honors of B. C. May Be Held Next Saturday

North Ward stick handlers are practicing hard and faithfully these evenings as the next big event that they have to contest will be the junior lacrosse championship of British Columbia. It has not been settled yet whether the deciding game of the year will be played here this coming Saturday or one week from then. The Warders would rather have the game held over a week for two reasons, first on account of the provincial fair now being held at the Willows, second because it would give them an extra week to get into the best possible condition. However, Al. Russ Hunter's athletes are taking no chances and in case the Vancouverites come down this Saturday the local boys will be prepared to give them the battle of their lives.

All members of the club expecting to appear on the field for championship honors are expected to get in practice this evening as there will be a special workout held.

### A. O. F. Practice Game

The Ancient Order of Foresters will hold another football practice this afternoon at 3 o'clock at the Royal Athletic Park. All players who at-

tended last Sunday's practice are requested to be on hand. Only four weeks remain before the first game and as the society is anxious to make a good showing a full attendance at this afternoon's practice is desired.

## SHORT, SNAPPY SPORT

It has not been definitely decided whether the Vancouver Grandviews will meet the local North Wards on the coming Saturday for the British Columbia Junior championship. If the Mainland twelve cannot be brought down here this week and they will positively appear one week from the coming Saturday.

The next field meet will probably be the Rugby football one this is to be pulled off at Royal Park on October 9th. In this meet there will be a large number of events open to Rugby footballers only.

Con Jones, the Vancouver promoter, is in New York at the present time taking a few weeks' vacation. He will probably come back to the coast before the first of next month.

There will be a great deal of attention paid to the second division football league this year, as there are a great many first class teams entered in this league. Last night's meeting was well attended.

All the soccer and Rugby teams are busy figuring out the form for the coming season. It is expected that there will be more of the great English game played this season than for some years past.

Vince Gray says he is proud of his track team. He has cause to be alright, as his big four are all real champs.

Basketball is occupying a lot of the sports' time already. A big bunch of athletes will go in for the great indoor pastime this winter.

Freddie Herke, one of the best known ball players of the Clifton team in the Arizona ball league, is visiting the city for a few weeks. Herke is a third baseman and a former teammate of Wattellet, the local ball promoter-manager.

Jim Jeffries will return soon from Germany to fight Jack Johnson, Oh, you Jeffries.

## OLD COUNTRY MIXED SPORTS

Thirty-six Thousand Spectators Saw Crack Sprinters

The English jockey championship has again developed into an international race, between Frank Wootton (South Africa), Danny Maher (America), and William Higgs (England). At present Wootton is easily first with 91 wins, Maher comes second with 61, and Higgs third with 56. What a life for a youngster like Wootton, this steering galloping thoroughbreds into victory, cheered on by thousands. Only in his fifteenth birthday last December, the lad is already wealthy. On totalling up his earnings last year they amounted to \$20,000, after deducting expenses and this season they will be in excess of this sum. Wootton won his first race when ten years old, and now his little brother is following in his footsteps as a great jockey, for he has already ridden a winner or two.

### Cricket

Little information has so far transpired regarding the cricket tour of the E. C. C. team to South Africa this winter, under the captaincy of Leeson-Gower, of Surrey. Eighteen matches have been arranged, including five test games. Two will take place in Johannesburg, two in Cape Town, and one in Durban. The team will arrive in Cape Town on November 30th and will sail for England on March 16th.

### With the Sprinters

Of the three sprinters, Cartmell, Kerr and Walker, who invaded England this summer, the former has probably made the biggest cleaning up of prizes when everything is reckoned up. There was an immense gathering of 35,000 spectators at Celtic Park, Glasgow, to watch the sports there. Cartmell and Walker were both at scratch in the 220 yards handicap, and finished first and second respectively to Cronin, to whom they conceded 14 yards start. The American's greatest performance during the day was in winning the quarter-mile from scratch in 50 4-5 seconds, beating the champion, Lieutenant Alan Pattison.

### Marvellous Boy

George Gray, the Australian boy player—he is only seventeen—has been recognized more than a year as the coming champion in the billiard world, but few were prepared for his latest achievement. Some little time ago he constantly broke Inman's red ball record with breaks of 315, 333, 435 and 504, but on August 25 when playing on a standard table at Melbourne he made a break of 536, no fewer than 531 being made off the red ball, this meaning a run of 277 consecutive hazards, while the break itself is the largest ever made under the present rules. If the numerous runs of many thousands are ignored made by Cook, Reece, Dawson and others by means of the freak "cradle" cannon.

## LOCAL MARATHON NEXT MARATHON

Victoria's Main Promoter Now Arranging for Gigantic Twenty-six-miler

Manager L. A. Wattellet of the Royal Athletic park, the busy Victoria promoter who has dished up so many classy athletic events this season is busy at the present time trying to arrange a gigantic Marathon in this city between all the stars over the long distance route.

The twelve and fifteen mile races that have been pulled off in this city at Royal Athletic park have been so successful that Wattellet thinks a real long distance race would be the drawing card of the year and for this reason has been communicating with all the leaders in the Marathon limelight.

John D. Marsh has answered saying that he would compete in the big race. Word is now awaited from St. Yves, Hayes, Longboat and others who are coming coastward. These runners are all expected at Seattle in the course of a very short time and if Wattellet can come to any kind of terms, the stars will be brought to Victoria.

Art Burn, the former Calgary runner who has done the full distance in well under three hours, will likely be in the coming local Marathon. Burn was one of Canada's best amateurs in his time but recently he was professionalized, and it is expected that he will compete in the Victoria Derby. Will Chandler, of Vancouver, who also was declared pro. at the recent meeting of the Amateur union, will likely be a starter. In Watt's marathon and Alex Rowan, the Nanaimo star, has also signified his intention of coming to this city and trying for honors.

This field would make one of the easiest Marathons that has been pulled off on the Pacific coast, as all the runners mentioned have good reputations and a big race over the full Marathon distance would be a great thing. Wattellet has made no definite arrangements for the Victoria Marathon as he is still busy signing up some of the runners, but it is likely that the race will be pulled off during the latter part of next month.

### Irish Athletes Compete.

WASHINGTON, D.C., Sept. 22.—The Ancient Order of Hibernians will hold their "Irish Fair" and field meet here today. The day will be enlivened with races and track events, participated in by well known athletes from the East and South. Martin J. Shidley, John J. Flanagan, Matt Maguire, Ben Sherman will compete, as well as Johnnie Gallagher, champion middle distance runner of the middle states; D. V. Fahey, member of the last Olympic team; Ben Barrett, of Baltimore, who will go against the world's champions in the hammer throw and weight events.

## WIZARD OF ETHERAL WAVES

MONTREAL, Sept. 22.—Marconi, inventor of the wireless telegraph, arrived in New York yesterday from London, accompanied by James Davis, one of the directors of the Marconi Company of London. Sig. Marconi said he had come over to superintend the reconstruction of the power station at Glace Bay which was destroyed by a storm a week ago. "It will be equipped with the latest and most powerful apparatus for sending messages across the ocean," he said "and I hope to have the station in full working order by January 1, 1910." The inventor expects to leave for Montreal today to consult with the Canadian company, on his way to Nova Scotia.

## RECORD ENTRIES IN SOCCER SERIES

Second Division Has Nine Teams This Year—Schedule Is Postponed

Second division and junior soccer football is taking a hold in this city this year, and in the former division there are more eleven entered in the former class than there has been in the history of second division soccer in this city. No less than nine teams have entered for this championship, and the brand of soccer put on this season should surpass anything that has been on the boards in previous seasons.

In the junior division this year the age limit has been set at under seventeen years, and any athlete that has not yet passed his seventeenth birthday will be eligible to contest in this class. In the junior division the following teams will clash for honors: Y. M. C. A. High School, Beacon Hill, North Ward.

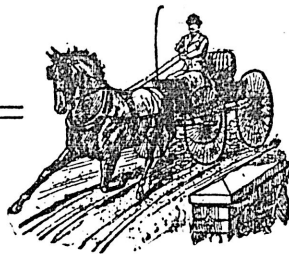

The schedule for the second division league will be drafted up by President A. Lockley, of the district league and Fred. B. Richardson, the following aggregations being the ones that will battle for soccer supremacy: Beacon Hill, Empress Athletic Club, Strawberry Vale, Victoria West, Esquimalt Athletic Association, Baracas, Y. M. C. A., Fifth Regiment.

When these teams are pitted against each other they should be able to make things rather lively in local soccer circles.

Referees are in demand this year, and any local officials who feel they have time to act in this capacity would be doing a whole lot for the upbuilding of soccer by leaving their names with A. Lockley.

Following were those present at the meeting at the Y. M. C. A. last evening: President A. Lockley, chairman; Fred. B. Richardson, secretary; P. B. Pomfret, Baracas; R. Tait, Baracas; Frank Sweeney, North Ward; Fred Schneider, North Ward; Tom O'Rourke, Beacon Hill; W. Mesher, Esquimalt; N. G. Findlay, Y. M. C. A.; Kid Sharp, Empress Athletic Club; F. B. Richardson, Fifth Regiment; Harry Ichabod Clark, High School.

# The Victoria Transfer Company

**Cabs** Do you know that our Glass Front Carriages are at your disposal at the following charges—Four Persons, single hour, \$2.00; Four Persons, an hour and a half, or over, at per hour, \$1.50. In four hours a party of four can see the principal points of interest in the City of Victoria for the moderate charge of \$6.00.

**Victorias** If you wish, we can furnish a Victoria, at per hour, \$2.00; single hour, \$2.50. These vehicles accommodate three persons and are most suitable for ladies doing afternoon calling.

**Tally-Ho's** We have the only Six-Horse Turnouts in Victoria, driven by men who have had a life-long experience on the Cariboo Road and the White Pass and Yukon trails. These coaches leave the hotels at half past nine for the morning drive and two o'clock for the afternoon. All points of interest are covered and those in charge give the passengers a full explanation of everything that is considered of value to the tourist. The drive is about fourteen miles and takes from one and a half to two hours. The fare is \$1.00.

We have a small Tally-Ho, built to carry a party of twelve, including the driver. For rates apply at the office.

**Furniture Trucks** Furniture moving is an important undertaking. We have men who do nothing else. Our charges are—By the hour, \$1.50. With an extra man to help the charge will be increased to \$2.00 per hour.

**Baggage and Express** In this department prompt delivery is the important factor. If you are catching a steamer or train you like to know that your luggage or packages will be at the wharf or station in good time to depart with you. What is more annoying than searching for your belongings a minute before your steamer sails or your train pulls out. This is off-set by our claim checks. Our drivers check your baggage at your residence. You present the claim check to the baggage-master—show your ticket—he then gives you the railway or steamer check, and that is all. You then go on your way rejoicing. If we cannot attend to your order we will tell you and thus avoid suspense.

**Express and General Drayage** We have twenty-seven Express and Delivery Wagons. For the use of one of these we make a charge of—Per Hour, \$1.00.

**Livery** Better Single or Double Traps cannot be found on the Pacific Coast. Single Horse and Trap—Morning, \$2.50; Afternoon, \$3.00.

**Teams** We are prepared to supply teams for Half a Day at \$5.00, excepting Saturday, Sunday and Holidays, when the charge will be, half a day, \$7.50. For long distances, the office will furnish particulars.

**Parcel Delivery** We gather parcels in all parts of the city. In this branch of the business, we charge according to weight and distance, but the usual charges are from ten to twenty-five cents per package. If you miss the morning delivery, catch the afternoon. Morning leaves at 9 o'clock. Afternoon leaves at 3 o'clock.

**Boarders** We board your horse, look after your trap and harness—Per month, \$25.00. Our object is to please our patrons. We are responsible to them as to safety or damage done to furniture or goods. Our drivers, we believe, are civil and careful, and seldom knowingly overcharge. If by any chance a mistake occurs, come to the office or notify us at once. In other words, give us an opportunity to put right anything that displeases you.

Agent.

### Cyclops Leaves

Steamship Cyclops got away for the Sound this morning, having under her hatches 50,000 cases of salmon loaded in Vancouver and 20,000 taken here, as well as 6,000 barrels of whale oil, received at this port, all for the Old Country. She calls again outward bound on the 8th of October, by which

time she will be completely filled as to cargo.

### For San Francisco

Steamship City of Puebla sailed this morning for San Francisco with a full cargo and every stateroom occupied, her passengers being principally Seattle Fair visitors.

## NOTED OFFICIALS ON AORANGI

Sir Chas. Lucas and A. A. Pearson  
of British Colonial Office  
From Antipodes

SENT FROM ENGLAND  
ON A MISSION

Went to Acquaint Themselves  
With the Local  
Problems

The steamer Aorangi, of the Canadian-Australian line, Capt. J. D. S. Phillips, which reached port last night from Sydney and way ports en route from the Antipodes with 116 passengers and a good cargo, after a pleasant voyage, brought Sir Chas. Lucas, K. C. M. G., C. B., and A. A. Pearson, C. M. G., two distinguished officials of the British Colonial office, who were sent on a mission to Australia, New Zealand and Fiji. Sir Charles Lucas, interviewed on board the Aorangi by a Colonist reporter, said:

"With my friend Mr. Pearson, who has now retired from the Colonial office after thirty-nine years' service, I have returned from a visit of five months to New Zealand, Australia and Fiji, where we spent one month. The visit was undertaken by instructions from the Secretary of State for the Colonies in order that the Colonial office might be brought into closer relationship and in close touch with the public men of the overseas Dominions. The idea originated largely as a result of the expressions of Hon. Mr. Deakin, the Prime Minister of the Commonwealth of Australia, at the last meeting of the Imperial conference. We have come away much impressed with the future prospects of New Zealand and Australia, and are very grateful for the warm feeling shown in both the Dominion and Commonwealth toward the Mother Country, and very grateful

for the kind treatment we received there. By instructions received before leaving England, we also visited the Fiji islands, where we were able to get new acquaintance with my old friend, Sir Everard Thurn, Governor of the Fijis. While there we discussed many important questions. I must decline to state what they were."

### Would Like to Stay

"We left England on February 26, going to the Antipodes by way of the Canal, and we have been away seven months. We will not remain in Canada, although I would dearly like to, as I have many pleasant remembrances of previous visits. I have made to this country, and am glad to be here again. I have been in the Colonial office for thirty-two years, and my friend Mr. Pearson, who recently retired from the service, has seen thirty-nine years' service."

When leaving Australia for the Fiji on board the steamer Atua, the Colonial office officials were accompanied by Atlee Hunt, under secretary of the department of external affairs for Australia, who, according to Australian newspapers, went secretly, his name being omitted from the passenger lists of the steamer. The Sydney Morning Herald says:

On board the Atua are Sir Charles Lucas and Mr. Pearson, two officials of the Colonial office. Mr. Atlee Hunt is the under secretary of the department which takes in the Pacific islands in their relation to Commonwealth interests. There are important questions and developments in the islands which affect Great Britain, and more particularly Australia. These questions may become of still greater importance when the Commonwealth has a naval squadron capable of policing the islands. It is not too much to say that at some future date the seat of administration of these oceanic British possessions may be a subject of discussion between the Imperial government and the Commonwealth. At all events, if some of the islands are not administered by Australia, the claim may be made that they should be administered from Australia. The reason is that the Commonwealth is more concerned with them than is any other part of the Empire. The increase of island trade—the development that is now taking place, and is practically sure to increase in the future—all tends to augment Australia's concern for their judicious exploitation. In short, it is clear that political interest is greatest where the commercial ties are strongest, and these ties between the Commonwealth and the islands are gradually strengthening. Nothing is clearer than that Pacific island administration is a matter of mutual interest to the Imperial and Australian governments, and the opportunity of discussing the subject with high officials of the Colonial office should not be neglected.

### Something Behind

The Constitution gives power to the Commonwealth to make laws with respect to its relations to the islands of the Pacific. The chief departmental official responsible for this phase of the Commonwealth functions is Mr. Atlee Hunt, and it is, therefore, assumed that his visit is not unconnected with that of the two Colonial office officials who recently came to this part of the world to gather information generally upon Colonial questions. The arrival of Sir Charles Lucas, Mr. Pearson and Mr. Atlee Hunt in Fiji will almost synchronise with the return there from London of Sir Everard F. Thurn, who has been appointed for a further term as High Commissioner for the Western Pacific and Governor of the Crown colony of Fiji, with his headquarters at Suva. The Colonial office delegates will therefore have an opportunity of acquiring information from the responsible Imperial officers in the islands.

## SHIPPING INTELLIGENCE

By Government Wireless.  
Estevan, 8 a. m.—Drizzling, wind southeast. Bar, 30.30, temp. 51. Sea moderate. No shipping.  
Pachena, 8 a. m.—Overcast, wind westerly. Bar, 30.23, temp. 50. Light swell. No shipping.

Pachena, 6 p. m.—Cloudy, calm. Bar, 30.17, temp. 52. Sea moderate. Tees westbound 12:10 p. m. Norwegian steamer Christian Bors eastbound at 2:40 p. m.

as well as of hearing any representations that may be made from the Federal government respecting its natural sphere of influence in Oceania. But in all this there is nothing to be gained by official denial and mystery. The secret departure suggests rather the foolishness to which unnecessary official reticence can be carried.

The Suva Times, referring to the questions discussed with the Colonial officials there, states that they include "The Imperial Loan, Land question, Drydocks, Wireless Telegraphy, Imperial debt and the High Commissioner."

### Looking for Trade

Discussing the visit, the Suva Times among other things says:

The making of Fiji a coaling station, and the establishment of a dry dock here by means of an Imperially sanctioned loan, is an absolute necessity if the Colony wishes to in any way attract the Pacific trade, which is said to be about to follow the opening of the Panama Canal. Much has been said of our position directly on the route, but we have a formidable rival, even better situated, in the Tahitian Group. Our small influence should also be added to that of the larger Colonies, urging the hastening of the installation of wireless telegraphy throughout British possessions in the Pacific.

The Aorangi left Sydney on August 30, and had fine weather from Sydney to Honolulu; thence moderate to light northeast and northwest winds, smooth sea and moderate swell. Among the passengers was Mrs. Sinclair, of this city, who went to act as nurse for Mrs. Cox, formerly Miss Christie, of this city, who recently gave birth to twins of the Fanning Island. Mrs. J. D. S. Phillips, wife of the master of the liner, and his son, were also among the passengers for the voyage.

The summary of the cargo on the Aorangi was: For Victoria: 385 cases canned meats; fourteen cases live birds; two packages general; twenty cases canned fruit; ten cases canned apples; five cases honey. For Vancouver: Four crates cheese; 325 cases canned meats; fifty cases jam; twenty-four barrels oil; fifteen packages general; 350 pairs legs of mutton; nine crates rabbits; 1000 carcasses mutton; fifteen sacks grass seed; 3119 pieces timber; six boxes butter; 237 bags hides; sixty-nine bags calf skins; 200 bales wool; twenty-five bags coar; 219 bundles sheep skins; forty-six crates pineapples.

The passengers were Mrs. G. Merriman, V. A. Freeman-Meeks, Mrs. J. D. S. Phillips, W. Roberts, C. E. Pemberton, Mrs. G. M. Geary, Miss C. M. Herne, A. A. Pearson, Mrs. Wilcox, W. H. Kesley, Miss M. Haskell, Miss M. Finney, Mr. Berndt, A. R. Gurrey, Miss C. B. Walker, Louisa, Mrs. M. S. Rankine, Nurse M. Cronarty, Thos. Weekley, W. R. Bailey, J. N. Brunskill, J. Resleure, Mrs. M. Daveney, R. Waite and infant, Miss A. Keetley, W. E. Bartley, Mrs. L. S. Claybourne and child, H. R. Glaisyer, Alex. Clemons, W. McMillan, J. C. Barker, John O'Brien, W. B. Stuckey, H. Isaacs, Master J. Phillips, J. McNair, R. B. Dixon, Miss K. Geary, W. E. Cane, A. Eberhardt, Miss E. Wilcox, R. A. Daly, W. H. Gill, W. Dietz, C. Dickey, Dr. J. D. Stubbs, G. B. Isenberg, Rev. A. C. Rankine, Miss Hancock, C. H. Heger, G. T. Donavan, Mr. and Mrs. E. Horton, Madm. O'Moore, G. R. Chapman, Elder T. Allred, G. Harris, J. C. Finlay, Miss Parkinson, Miss A. M. Connor, Mr. and Mrs. T. B. Leung, Miss A. Johnson, W. Nuttall, H. L. Clough, M. Leibnitz, W. M. Greenbaum, E. S. Anderson, O. G. Roberts, W. G. Wessels, Miss B. Parker, Mrs. Sinclair, Sir Chas. Lucas, S. W. Wilcox, Miss H. T. Kelley, Mrs. Daly, Mrs. Gill and child, E. A. Berndt, L. A. Dickey, Mrs. Stubbs, E. Robins, Mrs. Rankine, Miss F. H. Every, W. Hammon, A. Richards, W. Sneath, Master O'Moore, G. Reckheim, F. G. Gerson, Miss C. J. Kelly, N. O. White, Miss H. L. Hill, J. W. Smith, Mr. and Mrs. J. J. Morgan, W. Miller, F. Pearson, H. Epting, A. Walters, J. Dwyer, E. Munster, H. Kruse, M. Terraani, H. Cameron, J. Martin, H. Dexter, J. H. Ward, Robt. Sibbit, Mrs. Martin, F. Northage, R. Wood, Miss Martin, E. S. Wacklin.

## WHALEBONE AND FURS FROM THE ARCTIC

Schooner Volante Returns to Seattle  
From Trading Cruise in  
Arctic Waters

The schooner Volante has returned to Seattle from an Arctic cruise with whalebone, furs and ivory which was manifested at a value of \$30,000. This cargo was collected at the different trading stations along the route. The schooner took from Seattle a full cargo of merchandise for the traders with some supplies for missionaries and seals. The schooner was captained by Capt. H. S. Morgan, and had a crew of 12. The schooner was built at Point Barrow, Alaska, and was the first of its kind to be built there.

The fur traders have not had a very profitable season, according to the Volante's officers, the trade being so divided up that competition has driven the price paid for the natives for furs up to a point where there is too small a margin of profit to make the business attractive to men used to the early days in the fur trade business.

## LEELANAW ON DISENGAGED LIST

Steam Freighter Will Be Idle When  
She Returns From Alaska  
to Puget Sound

The steamer Leelanaw, owned here, which is due back to Seattle from Alaska, will be added to the list of tonnage available for outward-bound cargoes, as the vessel will go on the disengaged list on discharge of cargo. The vessel has been under time charter to the Alaska Steamship company during the summer in the Alaska trade. The charter expired on September 6, and since that date the steamer has been working on a per diem arrangement.

Wheat chartering is without feature. With farmers holding on to their wheat, the demand or tonnage has been holding off, and with the dozen vessels of the South already fixed for the United Kingdom, shippers are not looking for additional charters at the moment unless something attractive in the way of a rate is offered as an inducement. The same conditions apply on the Columbia river and at San Francisco.

In the lumber trade Central America and the West coast seems to offer the best inducements, with some demand from the Orient, but business with Europe, South Africa and Australia is showing little life. Coastwise rates on lumber have an easier inclination, owing to large stocks in California and the necessity of keeping bottoms in action.

Recent charters in the lumber trade include the schooner Bangor, from Puget sound to Guaymas, by G. W. McNear. The vessel is to load at Everett.

Steamer Otter arrived in from Lady-smith this morning with 310 tons of coal for the C. P. R., and is loading 2,100 tons of salmon and other cargo which she will shift to Vancouver.

### Other Brings Coal

The steamer Vadoso of the Boscowitz Steamship company is due from Nans and way ports of northern British Columbia. She will leave again tonight, calling at Bella Coola on this voyage.

## ALGERINE DUE FROM THE NORTH

Is Returning to Esquimalt After  
Completing Sealing Patrol  
in Bering Sea

The sloop-of-war Algerine is expected to reach Esquimalt today from Bering Sea, after completing her patrol, cruise in the northern waters, where a fleet of seven local sealers are engaged this season, and over thirty Japanese vessels have been busy. H. M. S. Shearwater is also expected, returning from COMEX, where she has been carrying out her firing practice.

According to advices from Bering Sea, brought to San Francisco by John N. Cobb, agent of the U. S. bureau of fisheries in Alaska, the Japanese seal hunters have not been full of regard for the sealing regulations. They are not amenable to the restrictions which the Victoria sealers have to observe, but according to the agent they have also not regarded those provided by international law.

In the work of enforcing the law regarding fishing, the Japanese government has not helped this government in any way. Cobb said to the San Francisco call, "Japanese sealers often have Canadian masters, and these come within the sixty mile limit, restricted by international law."

"I know of a certain Japanese sealing boat that was built up of paper mache to resemble the United States cutter McCulloch, so that it might get nearer the shore without being checked and illegally kill seal."

In Alaska the salmon supply exceeds the demand, and there is presumably no need of more stringent rules except as a protection for the future. In Puget Sound and the Columbia River, however, salmon have fallen off to a degree that forebodes absolute extinction."

## WHALEBONE AND FURS FROM THE ARCTIC

Schooner Volante Returns to Seattle  
From Trading Cruise in

## SHIPOWNERS ADD TO THEIR FLEETS

Glasgow Firms Add Many Vessels by  
Charter to Lines Owned  
by Them

The extent to which some of the larger Glasgow firms carry on general shipping business in addition to running their own boats on regular routes at regular times is scarcely realized outside of those directly interested, says the Glasgow correspondent of the London Shipping Gazette. The present position of the Clan Line is a case in point. The firm are in the market for tonnage for their own services, and at the same time an unusually large number of their own fleet are engaged on outside charters. Three liners have been carrying sugar from Java to the United States, one is bringing beans from Vladivostok to Hull, two are sailing from Belra to Baltimore, two from New Zealand to European ports, one from San Francisco to Australia, and one from the River Plate to Calcutta. When these charters were all filled the firm were finding, no doubt, that their vessels made more money on outside business than on their own routes, and that it was better to charter occasionally for their own purposes than have a number of their ships lying up or running at little or no profit.

(Additional Marine on Page 13.)

## A Money Saving Scheme

Lots in Hollywood Park at Foul Bay  
Price \$400 and \$450

Level, high and dry, all cleared, on good streets with city water, sewers, etc., and close to the street cars. We have sold of this property to bona fide homebuilders since the 25th of May, \$50,000 worth. There have been six residences erected there since that date and all sold, and contracts are now let for \$20,000 worth more of beautiful modern homes, which will be built this fall. You cannot put your little savings into a better investment. The terms are easy, \$50 cash and \$10 per month, and the advance will be quick.

We have a good customer, with no children, for a furnished home with four bedrooms, at per month \$50.

NEW SIX-ROOM BUNGALOW, modern and complete, \$250 cash and \$40 per month.

Price ..... \$4,250

NEW BUNGALOW, six-rooms, Pandora avenue, heated with hot water ..... \$4,000

NEW SIX-ROOM RESIDENCE, full sized basement, close to the High School, on Fort Street, large lot, fine view, furnace; a most complete home. Price \$3,500. Terms \$150 cash, balance \$25 per month.

McPherson & Fullerton Bros.  
618 Trounce Avenue, Victoria, B. C.

## SALE OF LAND FOR UNPAID TAXES AND SCHOOL RATES IN THE VICTORIA ASSESSMENT DISTRICT, PROVINCE OF BRITISH COLUMBIA

I HEREBY give notice that on Friday, the 12th day of October, A. D. 1909, at the hour of 10 o'clock a. m., in the Maple Committee Room of the Parliament Buildings, Victoria, B. C., I shall sell by public auction the lands of the persons in the list hereinafter set out for the delinquent taxes unpaid by the said persons on the thirty-first day of December, 1908, and for interest, costs and expenses, including the cost of advertising the said sale, if the total amount due is not sooner paid.

| Name of Person Assessed                | Short Description of Property.                    | Taxes | School Rates | Interest to Date of Sale | Statutory Costs and Expenses. | Total. |
|--|---|-------|--------------|--------------------------|-------------------------------|--------|
| B. C. Sand and Gravel Co.              | Section 16, Esquimalt, 18.84 acres                | 9.50  | 30           | 50                       | 1.00                          | 102.40 |

## UNDESIRABLE IMMIGRANTS

W. R. Trotter's Report to Trades and Labor Congress on His Work in Britain

QUEBEC, Sept. 22.—The Dominion Trades and Labor Congress yesterday got down to work, when standing committees were struck. Much interest was evinced in the report of W. R. Trotter, Canadian labor representative in Great Britain, with regard to misrepresentations to undesirable immigrants coming to Canada.

After referring in detail to his mission, Mr. Trotter quoted statistics showing the exact condition of British emigration and related how the work and efforts of the Dominion Trades and Labor Congress were misconstrued in the British Isles.

In concluding, Mr. Trotter said: "We should like to say with all the emphasis possible, that there are certain classes which Canada does not want and for which she makes no provision."

"There is, first of all, and pre-eminent, the 'remittance' men, who live on remittances from long suffering relatives at home. There is another class, in every way respectable, composed of professional men and tradesmen, for whom there is no work in Canada. In the meantime the land is overflowing with them. If they are to emigrate at all it ought to be to other colonies, where there chances of success are greater. The men wanted in Canada are men with some knowledge of agriculture. There are many openings for such men, but they must be careful. Canada is suffering from honest exaggeration. It is suffering, too, from a worse evil, from the superabundance of real estate agents and speculators in land. It is, however, so good a country that exaggeration cannot harm it, and who have land to sell are doing it the best service we can when we tell the truth about it."

At the termination of Mr. Trotter's report, Rev. Dr. S. Shearer, secretary

of Moral and Social Reform for the Presbyterian Church of Canada, congratulated the convention on having in their midst the Minister of Labor, and in the course of his speech emphasized the fact that there should be closer connection between labor organizations and the Church.

## Carmen Choose Officers.

ATLANTA, Ga., Sept. 22.—M. F. Ryan, of Kansas City, was yesterday elected Grand Chief of the Brotherhood of Railway Carmen of America. Frank Paquin, of Chicago, was elected first vice-president and Alfred Chartrand, of Montreal, second vice-president.

UTICA, Sept. 22.—Peter Grimaldi, pleaded guilty today to murder in the second degree, and received an indeterminate sentence of 20 years or life. The trouble arose over 25 cents, and insanity was urged. The prisoner dropped all pretence of insanity after sentence.

### TRIO OF BUTCHERS GUillotINED

Morbid Throng Shouts Exultantly as Heads of Notorious Criminals Fall Beneath the Knife.

VALENCE D'ROME, France, Sept. 22.—A triple execution by guillotine took place in this city at daylight today. Three men, Berruyer, David and Lictard were decapitated for a series of atrocious crimes in the department of D'rome which created a reign of terror. No fewer than twelve murders and 200 robberies are laid to the doors of these men.

They often tortured their victims with red-hot irons. A great crowd witnessed the executions and applauded wildly every time the knife fell.

### THE HONORED DEAD

ST. PAUL, Minn., Sept. 22.—The body of Governor Johnson was laid in state in the Capitol today and the people of the Twin Cities and from nearby towns were given an opportunity to take a last look upon the face, which all knew so well in life. The body will lie in the Capitol until 9.30 tonight when the doors will be closed. At 9.15 tomorrow morning the casket will be taken by special train to St. Peter, Minn., where the interment will be made. The body will be escorted to the railroad station by ten companies of militia preceded by a band of 100 pieces. The active pallbearers have been selected from among the Governor's closest friends.

The B. C. Electric Railway Co., contemplates the erection of a new passenger station and general offices at New Westminster.

### NOT FOR CRIMINAL COURT

TORONTO, Sept. 22.—Frank S. Evans, of the firm of Evans & Co., mining brokers, was acquitted in the sessions court yesterday on a charge of fraud preferred by Patriarche & Co. The trouble arose out of a deal in mining stocks. Patriarche & Co. ordered 5,000 shares of Peterson Lake stock and next day it is alleged ordered the stock resold. In the interval it had dropped \$700 in value and this loss Evans & Co. carried until Patriarche & Co. turned in a cheque for \$558 to be applied on the purchase of other stocks. The money was placed to the credit of Patriarche & Co. When a request for the return of money was refused, proceedings were initiated against Evans on a charge of fraud. In giving judgment Judge Winchester said: "The case should have never been entered in a criminal court."

# VICTORIA REAL ESTATE

## SAANICH FRUIT LANDS

Small Holdings---Income Producing

"Prospect Orchard," Thomas's Crossing, has been sub-divided into the following lots

Lot. Acre. Price. BLOCK I.

1.—10.00—\$5,000.—About 7 acres in 4-year-old fruit trees, balance seeded down this year to Tim. & Clover. Trees consist of about 20 pears, 85 plums, 265 apples, and 315 1/2-l. Prunes. Splendid fruit land and trees show enormous growth. In many cases 7 feet this season. A good crop of plums and pears is being gathered now.

2.—10.00; \$5,000.—About 2-3 in fruit, balance as above. Orchard consists of one-half similar to above and other half of 7-year-old apples, chiefly King and Wealthy. About 340 apples, 12 pears, 52 plums, 195 prunes. Other remarks similar to above, not so many trees, but one-half much older and approaching full bearing stage. A good well and windmill pump is on the lot.

3.—9.92; \$5,000.—Rather more than half in fruit. All apples, of which there are about 800 7 or 8 year old trees. Balance as in Lots 1 and 2 except for about 1 acre scrub which could be easily cleared for house site. This is corner block and has good roads south and west.

5.—6.69; \$1,675.—Good fruit land all cleared meadow.

6.—4.44; \$1,100.—Similar to Lot 5.

7.—5.11; \$1,400.—Similar to Lots 5 & 6. Seeded down to Tim. & Clover this year. Corner lot.

Lot. Acre. Price. BLOCK II.

4.—26.00; \$9,500.—Consists of orchards, meadow land and land seeded down. Good 6-roomed house and house for outside help, capital large barn with stables, cow houses, fruit packing room, machinery, and trap sheds, &c. Good outbuilding, hen houses, granary, &c. Fruit trees consist of about 100 pears, 43 cherries, 550 apples, berries, quinces, peaches, nectarines, and small fruits including 1000 strawberry plants. These orchards have been all well cared for and have produced fruit which in competition at various exhibitions has taken many prizes.

BLOCK II.

1.—8.28; \$1,450.—Partly cleared. About two acres almost cleared, all fine land. Very suitable for chicken ranch.

2.—8.25; \$2,000.—All cleared and under cultivation partly in potatoes, carrots, and mangels. New Page Wire fence.

3.—8.24; \$3,250.—All cleared and under cultivation partly in potatoes, carrots, and mangels. New Page Wire fence. New 5-roomed house.

All excellent fruit land and within from 1-4 to 1-2 mile-of railway station and beach, and 14 miles from Victoria.

Arrangements can be made to view this property by applying to us.

## WOMAN AFFIRMS HOLMES' GUILT

Mrs. Carlsen's Evidence Goes Strongly Against Prisoner

NANAIMO, Sept. 22.—Wm. Holmes, charged with the murder of Gus Carlsen, was given a preliminary hearing today, and was committed for trial at the next assize. The case against Mrs. Carlsen was withdrawn.

The courtroom was crowded, and there was much curiosity as to the statement to be made by Mrs. Carlsen. William Holmes, the prisoner, was brought into court at 10 o'clock. A tall, straight young fellow, with dark curly hair and sallow complexion, he was manifestly very nervous and keenly alive to the seriousness of his position.

Mr. J. H. Simpson appeared for the Crown and Mr. C. H. Beevor-Potts for the accused.

Dr. Lingham was the first witness and testified as to the finding of the body and that death was due to strangulation.

Mrs. Carlsen was next called. Her evidence was the same as at the inquest until she came to the noise she heard. Today she stated that the third she heard was in the bedroom and that this third aroused her. She jumped to the foot of the bed, exclaiming, "Oh, my God!" There was a form in the door and the next thing she was stunned by a blow on the brow. When she regained consciousness Holmes was standing over her and she said, "Oh, Will, why have you done that?" He replied, "Have you not suffered long enough?"

She never saw Carlsen's body removed.

Holmes had then said he would tie her up and take her husband's money. The former he did and the latter she thought he did. He said nothing more than she had quoted. Carlsen never moved or spoke after he was struck.

The most dramatic moment in the trial was when Mrs. Carlsen was asked to identify the prisoner and both woman and man were visibly moved.

Mrs. Carlsen, besides the radical change in her story directly stating that Holmes was the man who struck Carlsen, also testified to the bad feeling existing between the men. Holmes, she said, had visited her house on Monday morning, the day of the crime. He asked her how she was feeling and she had replied, "Not very good."

He had then asked her if Carlsen had been ill-using her again. She replied, "No." He declared he would "do for him," but she had asked him to let Carlsen alone.

Here was the motive for the crime, and other witnesses also spoke of it. Mrs. Carlsen's sister (Miss Annie Houtt) said Holmes had told her Carlsen had threatened to kill him (Holmes), and the latter in turn had threatened to kill Carlsen. She also spoke of hearing Carlsen in the house on Saturday morning. She heard

## SHIPPING MASTER OPENS OLD QUESTION

Heretofore Vessels Have Been Permitted to Tow Between Ports Without Full Complements

The refusal of the new shipping master at Vancouver to clear the British ship Celtic Monarch to tow to Seattle for her cargo of wheat because the vessel has not signed her full complement of seamen to replace those who deserted at Vancouver, has been decided by the marine and fisheries department at Ottawa against the shipping master. It has occurred year after year for the past decade. About ten years ago the shipping master at Victoria refused to permit the clearing of a sailing ship to tow to Vancouver on the same ground, but the then collector of customs, the late R. Milne overruled him and gave the vessel her clearance. Some months ago the Victoria shipping master was called upon by the department at Ottawa to explain why he had given a vessel permission to clear for New Westminster when there were but thirteen of her crew on board.

He explained that it had been customary to do so, the vessel being in charge of the tug for the voyage which was being made to secure her cargo, and the crew would be signed in full when the vessel was ready to proceed to sea. It is considered by shipping men that to enforce the shipment of the full crew when the vessel is moving from one port to another in inland waters in charge of a tug would work a hardship upon shipping.

## GET THREE-FOURTHS OF THE SALVAGE

Contract Made by Vancouver Company for Salvage of Hull and Cargo of Ohio

Further advices received here yesterday regarding the salvage of the wrecked steamer Ohio, the contract for which, as stated yesterday, has been awarded to the Vancouver Salvage and Dredging company, show that Capt. Bissett, for the Vancouver company has agreed to undertake the work on a "no cure, no pay" basis, receiving 75 per cent of the value of what he recovers.

The agreement was arrived at between Capt. Johnson, Lloyd's agent at Vancouver, the insurance on the hull being placed with the English concern, and the agent of the San Francisco board of underwriters in Seattle also signed the contract as to the cargo. The insurance on the latter amounts to about \$100,000, but a large proportion of the cargo was made up of groceries and supplies which are of a perishable nature, and the recoverable portions of her cargo, outside of the steel rails, is not believed to be great.

By being given jurisdiction over the hull as well as the cargo, the salvors will be enabled to get at the cargo in any way they see fit. Owing to the list of the wreck and the angle at which she is lying, it was not believed that the cargo could be secured at a profit without demolishing the hull, and this is what the salvaging company may have to resort to. By so doing they will obviate a lot of dead work, as much useless cargo, such as cement and provisions, would have to be removed before the cargo with a salvage value could be reached. The work will be done with an 800-ton barge and a diving outfit.

All the materials recovered from the wreck will be taken to Seattle on American steamers, the Canadian customs authorities having given a permit by which vessels flying the American flag can put into Carter bay and take on cargo. The barge will also be used in carrying whatever is recovered to Puget sound.

Whether or not the machinery of the Ohio will be broken up on the spot or an effort made to raise the parts intact will have to be determined by the divers after the hull has been sufficiently emptied to permit of an examination. The engines, while good, would be hard to market, and as the boilers were submerged with 140 pounds of steam in them, there is no telling what condition they may be in.

Mr. Bissett will start for the scene of the wreck with his outfit today.

## THE GRIFFITH COMPANY

ROOM 11, MAHON BLDG., TEL. 1462.

## DEAD CAYMAN COME TO LIFE

Alligator on the Steamer Ella Was Stiffened by Cold and Barga Was Called Off

Capt. H. Bruhn, of the German steamer Ella, unlike most sailors, is not superstitious and heretofore has refused to carry any one who believes that cats have nine lives. Now, however, he is willing to admit that he may not have given the matter proper consideration, for he has witnessed that which he believed to be dead come back to life before his own eyes.

As an experiment Capt. Bruhn brought a full-grown alligator, which he proposed to dispose of to any one interested in natural history, who would pay a price for the cayman. As it is about fifteen feet long, he soon discovered that no one wanted it as a pet, so he sought purchasers from among the showmen's ranks and one of these offered \$15 for the brute.

"Nothing doing," said the German skipper, who knows American slang and has a Yankee's ability to negotiate a bargain.

The showman explained that at 10 cents a head for admission he had to wait a long time to get his money back.

"Well, the alligator will be with you a long time," replied Capt. Bruhn. "His name is Methuselah—he'll live forever—all alligators do."

With the prospect of getting a specimen which would never give out on him, the showman advanced his bid by easy stages to \$50, at which figure his proposition was promptly

## TO LOAD LUMBER

The steamer Greenwhich left yesterday morning for Chemulson to load lumber for Adelaide, Australia.

## Sugar Steamer Due

The steamer Christian Bors, laden with raw sugar from Java, for the B. C. Sugar refinery of Vancouver, is expected from Soerabaya via Moji, Japan.

## Long Distance Wireless

A message from Shanghai, sent by the wireless plant at that port, was picked up by the steamship Minnesota when only 700 miles out from Flattery. The vessel left Seattle on Saturday, and was talking to the Seattle office when a message was flashed from the other side of the Pacific and was so strong that it interrupted the taking of the message from Seattle on board the Minnesota. Operators in Seattle regard it as remarkable that the sparks should have had that much power, but think that the instruments on the Minnesota and at Shanghai must be nearly attuned.

## NOTICE

Notice is hereby given that I have deposited with the Minister of Public Works, Ottawa, and the Registrar-General of Titles, Victoria, B. C., plans and descriptions of site of works proposed to be constructed by Messrs. Francis J. O'Reilly, Walter Chambers and David Dolg, of Victoria, aforesaid in Victoria harbor, immediately fronting lot 1283 Victoria city, and that I intend to apply to the Governor-in-Council for approval thereof.

Dated at Victoria, B. C., this 9th day of September, 1909.

W. H. LANGLEY,  
1111 Government St., Victoria, B.C.  
Solicitor for applicants.

## CANCELLATION OF RESERVE.

NOTICE is hereby given that the Reserve on Lot 4,336, G. 1, Kootenay District, notice of which bearing date of February the 3rd, 1909, was published in the British Columbia Gazette of February 4th, 1909, is cancelled, in so far as the said reserve prevents the acquisition of said lands by pre-emption, under the provisions of section 33 of the Land Act.

ROBERT A. RENWICK,  
Deputy Commissioner of Lands,  
Lands Department,  
Victoria, B. C., August 3rd, 1909.

## NOTICE.

Notice is hereby given that the Reserve existing on the lands embraced in special Timber License No. 23,290, situated on Gambler Island, New Westminster District, is cancelled.

ROBERT A. RENWICK,  
Deputy Commissioner of Lands,  
Department of Lands,  
14th July, 1909.

## DISSOLUTION OF PARTNERSHIP.

Notice is hereby given that the partnership heretofore existing between Charles Smith and William Battershill, well drillers and rock blasters has by mutual consent been dissolved as from the 25th day of August, 1909. The business of well-drilling and rock blasting will be carried on by Charles Smith, who will pay all debts due by and collect all accounts, due to the said partnership in respect of the said business, at the City Hall, Victoria.

WILLIAM BATTERSHILL.

## SUES FOR INSURANCE ON LOST CENTENNIAL

Barnes Hibberd & Co. Enter Action for Payment of Risk on Cargo on Blockade Running Trip

Because of the refusal of the Maritime Insurance company to pay the claim of Barnes Hibberd & Co. for \$77,213.09 which is claimed on an insurance policy against war risks covering the cargo of the steamship Centennial, shipped from San Francisco

## AIRSHIP FOR CANADA'S ARMY

OTTAWA, Sept. 22.—Tony Nassir, owner and designer of the Nassir airship, will make a proposition to the Canadian Government to supply dirigible balloons for military experiment purposes. Mr. Nassir has an airship built and will give the Canadian Government

the first option on it. The new airship, though built almost similar to the one destroyed at the exhibition grounds here last week, is much larger and capable of carrying two men with necessary equipment. It has a powerful engine and a balancing device which has already been tried and perfected. To make the airship easier to control, the framework and basket are suspended much lower in the machine than in the old one built by Mr. Nassir. Mr. Nassir will come to Ottawa and build there. If necessary he will take out naturalization papers. He proposes flying before the militia council to demonstrate the value of his navigable balloon.

## Sentenced For Theft.

BUFFALO, N.Y., Sept. 22.—James C. Wood, formerly cashier in the county treasurer's office, has been sentenced to an indeterminate term for grand larceny, to which he pleaded guilty.

## NOTICE TO CONTRACTORS.

The time for receiving tenders for the metal work of the Suspension Bridge, Lillooet, is hereby extended to noon of Saturday, the 28th day of August.

F. C. GAMBLE,  
Public Works Engineer,  
Department of Public Works, B. C.,  
20th August, 1909.

## NOTICE

NOTICE IS HEREBY GIVEN that I intend to apply to the Board of License Commissioners of the City of Victoria at its next sitting for a transfer from me to Richard C. Davis of the license to sell spirituous and fermented liquors by retail at the Poodle Dog Restaurant, situate at numbers 615 to 619 Yates Street, Victoria, B. C.

Dated the 16th day of August, 1909.

A. COOPMAN.

## Navigable Waters Protection Act

NOTICE is hereby given that the Corporation of the City of Victoria, will, on the expiration of thirty days from the first advertisement of this notice, apply to the Governor General for grant or lease of foreshore on the inner harbor of Victoria harbor, Province of British Columbia, at the termination of Discovery street, and have deposited plans of the said foreshore as required by the above statute, and same may be inspected in the city engineer's office at the City Hall, Victoria.

Dated this 2nd day of September, 1909.

MASON & MANN,  
Victoria, B. C.,  
Solicitors to the Corporation.

DOWN COMFORTERS, 66x72, very fine quality, silkline covering. Special, each \$5.75  
DOWN COMFORTERS, 66x72, very fine quality silkline covering. Special, each \$6.75

## Triumph of the ARCADIAN MALLEABLE RANGE

### IT COOKS AND BAKES BETTER

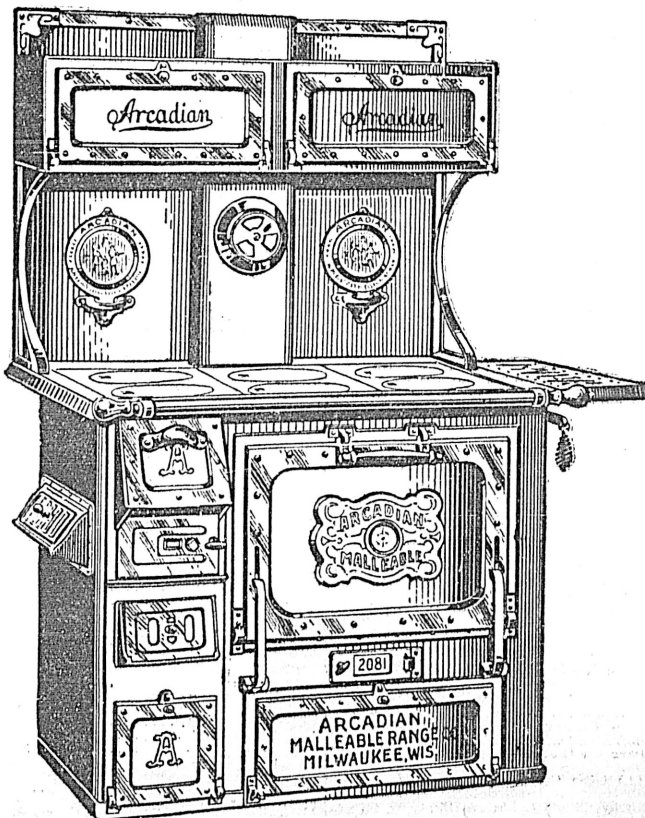

The Arcadian accomplishes magnificently what has been the long cherished wish of all housekeepers—A Range That Will Bake Perfectly Always.

In the marvelous operation of the Arcadian Range, with the impenetrableness of its joints, the absolute and quick control of the fire, and the air, gas and dust-tightness of its oven, the full strength and exquisite natural flavor of the foods are preserved unimpaired. The results are ever the lightest, sweetest and most nutritious foods, and the same are decidedly more palatable.

The Arcadian Malleable-Charcoal Iron Range is built like a locomotive boiler—perfectly tight. No false drafts, which are so destructive to good baking and cooking, can enter its body as in the case of other ranges—the cast iron ranges or the so-called steel ranges which are of part steel and part cast iron construction.

The Arcadian Range obeys the slightest command of the operator in responding promptly to the manipulation of the dampers or registers controlling the draft and will heat quickly and cool off rapidly, as desired.

By the positive control of the heat, the uniform heating of the oven, you are enabled with the Arcadian Range to cook and bake any article of food with absolute certainty of getting, at all times, excellent results.—THE CHOICE OF GOOD HOUSEKEEPERS.

## Splendid Assortment of Patent Medicines Priced Reasonably

MONEY SAVED IS MONEY GAINED.

Everytime you buy your patent medicines and toilet articles from us, you gain money. We buy largely, therefore we are in a position to sell reasonably. Furthermore, on account of our large turnover our stock is always fresh.

NOTE.—WE ARE SELLING PEAR'S SOAP AT 10c CAKE.

## Have Your Upholstering Done Here

Maybe you have a nice piece of furniture in the house that looks a little shabby through the upholstery being worn out. If so, we can and will make it as good as new. Our Upholstering Department is under the direction of an experienced upholsterer, whose capabilities are beyond reproach. Every bit of work done is of the "wear well" and guaranteed sort. Satisfaction an assured fact. A trial order solicited. Ring up Carpet Department.

Our Display at the Exhibition Is Interesting
